# **Annual Report 2011**

## **The National Statistical System in Cambodia**

**Prepared by  
National Institute of Statistics  
Ministry of Planning**

**Phnom Penh, August, 2012**

# FOREWORD

It is my great pleasure to introduce the second Annual Report for the National Statistical System since the Sub-Decree on Designated Official Statistics was in force in July 2010. According to the Sub-Decree, Ministry of Planning shall, within 12 months after the approval of the Sub Decree, send an annual report to the Council of Ministers. National Institute of Statistics (NIS) as official national statistical institution of the Ministry of Planning has prepared this report with valuable support from the Royal Government line ministries and institutions concerning the National Statistical System. According to Sub-Decree on the Organization and Functioning of the National Statistical System (Article 10), the Minister of Planning shall submit the annual report of the national statistical system to the Council of Ministers.

The annual reporting is a necessary condition for NIS to report to the Royal Government of Cambodia about the coordination activities in the Cambodia's National Statistical System. Through this report the Royal Government of Cambodia will receive a good overview of the official statistics produced the previous year that can be used for policy making and what statistical activities will be needed in the future thanks to the information provided by the line ministries and institutions.

On behalf of the Royal Government of Cambodia, I would like to take this opportunity to thank Sida for the financial support and Statistics Sweden for their technical assistance to prepare this report. I also would like to express my gratitude to all line ministries, institutions who have provided NIS with the information for the report. 

**Chhay Than**  
Senior Minister  
Minister of Planning  
Chairman, Statistics Advisory Council

Phnom Penh, Cambodia  
August, 2012

# PREFACE

The National Institute of Statistics (NIS) of the Ministry of Planning is responsible for coordination of the National Statistical System (NSS). One of the tasks for the NIS and the Ministry of Planning, according to the Sub-Decrees on the Organization and Functioning of the National Statistical System and lately Designated Official Statistics approved by the Royal Government of Cambodia in July 2010, is to present an annual report to the Council of Ministers. This is the second report prepared by NIS. Information in this report is collected from the 27 line ministries/Councils/State Secretariats/National Bank of Cambodia responsible for designated official statistics.

We thank the members of the SCC and the staff at the Designated Official Statistics within line ministries and institutions of Royal Government of Cambodia for assisting NIS in coordinating the Cambodia's National Statistical System. We also extend our thanks to the work carried out by NIS staff and all who work with dedication and enthusiasm to increase the quality of the designated official statistics in Cambodia. Furthermore, we wish to place on record our deep appreciation of Statistics Sweden for management assistance and technical support.

Contact persons for this report are Mr Heang Kanol, Ms So Sovanchakriya, Ms Nong Sokuntheavy, and Ms Suy Sotheara.

## Summary

The Cambodian national statistical system (NSS) is decentralized with 29 producers of designated official statistics. There are 28 line ministries and institutions, including the National Institute of Statistics (NIS), regulated by the Sub-Decree on Designated Official Statistics. In addition, the National Training Board is regulated by a separate Sub-Decree. The Statistics Law and two connecting Sub-Decrees govern all matters relating to the NSS.

The NIS at the Ministry of Planning is the official statistical policy-making body of the Royal Government with the responsibility for establishing and leading an integrated national statistical system. To carry out its coordination tasks the NIS meets regularly with the other producers in the Statistics Advisory Council (SAC) and the Statistics Coordination Committee (SCC), both established in 2007. The SAC is to advise the Minister of Planning, in relation to determining official statistical policies and requirements to be addressed by the NIS and designated statistical units. The SCC is to assist the NIS, in relation to preparation of statistical policies, procedures, and legislation for the national statistical system and official statistics.

The SAC held one meeting in 2011, where the main item on the agenda was to discuss how to allocate resources for an agriculture census in Cambodia. The SCC met twice in 2011, the first meeting discussed some ideas on how to carry out coordination of the national statistical system in Cambodia. A competence inventory of the staff in the national statistical system was also presented and a technical working group was installed to further analyze the results of the competence inventory and to suggest training activities the NIS could carry out for the NSS. At the second SCC meeting in 2011, the NIS reported from the discussions in the technical working group for training and presented a proposal on basic statistics training for the staff in the line ministries. The SCC agreed on the proposal. The NIS also presented the main findings of the first annual report of the national statistical system 2010 and the questionnaire for the 2011 data collection.

The NIS has carried out several activities in 2011. Besides conducting meetings in the SAC and the SCC, the NIS has collected 2010 survey information from the statistical producers in the NSS and entered it into a recently created database. Some information was used in the annual report of the national statistical system, which was produced for the first time. Also a summary report on the results from the competence inventory was compiled in 2011. Furthermore, the NIS reviewed its website that now contains much more information about the national statistical system. Information of the system, the legislations and links to the websites of the producers of designated official statistics can now be found on NIS website.

The total number of staff producing the designated official statistics is 698. Only central staff is included. The total costs cannot be presented as many of the designated statistical units have great difficulties to calculate them and therefore the quality is very low. A summary of what has been reported for each survey as estimated or actual costs is presented in appendix 1.

According to the information collected for the annual report in 2011, the total number of statistics produced is 109. Of the 109 designated official statistics more than 70 percent of the statistics are from administrative records.

Most of the statistics produced can only be presented for the country as a whole. For censuses conducted by the NIS it is possible to break down the results on village level. There are also some administrative records where the level of presentation is on provincial level.

In chapter 4, a summary of each statistical producer is presented with information on what designated official statistics were produced in 2011. For more detailed information see also the appendixes.

# 1 The Cambodian National Statistical System

## 1.1 Background

The national statistical system (NSS) is, defined in the Statistics Law (art. 2), “integrated statistics data at national and local level and infrastructure, including all official statistical data and national statistical programs; statistical organizations and statistical units within ministries and institutions of the Royal Government; as well as their statistical staff and other infrastructure”. The National Institute of Statistics (NIS) is the official statistical policy-making body of the Royal Government, with the responsibility for establishing and leading an integrated national statistical system which covers all designated official statistics of ministries, government institution and the statistics units.

An Annual Report on the national statistical system is required by the Sub-Decree on Designated Official Statistics, approved by the Royal Government of Cambodia (RGC) in 2010. According to the Sub-Decree the National Statistical System consists of, besides NIS, 27 line ministries, government institutions and National Bank of Cambodia. All of these ministries and institutions produce more than forty reports, although with different frequency, according to the NSS inventory. Most of the reports are annual reports, but also quarterly or even monthly reports are published.

This Annual Report is the second report to be produced by the NIS and will give an overall view of the system for designated official statistics in Cambodia and activities carried out in 2011 by NIS and statistical producers within the national statistical system.

NIS is responsible for the coordination of the system, to prepare an annual report on the official statistics, to compile annual publishing plan, and maintain a register of the statistical units and their products. The statistical production is decentralized. Characteristics of a decentralized system are the following:

- Surveys to be done and variables to be used are decided in different organisations
- Classification systems, methods and standards might differ within the system
- Terms and concepts are decided in different organisations
- The principle of presentations are different in different organisations
- The statistics are published on different websites

## 1.2 The Structure of the National Statistical System

Altogether there are 29 producers of designated official statistics. There are 28 line ministries and institutions, including NIS, regulated by the Sub-Decree on Designated Official Statistics. In addition one more institution, the National Training Board is regulated by a separate Sub-Decree.

The central institution in the national statistical system is the NIS at Ministry of Planning. According to the Statistics Law, the NIS is the official statistical policy-making body of the Royal Government, with the responsibility for establishing and leading an integrated national statistical system which covers all designated official statistics and statistical units within ministries and government institutions. In addition to the NIS, each ministry and other government institution producing designated official statistics should have a statistics unit responsible for producing statistics. However, not all comply with the

regulation. Instead some ministries and institutions have chosen to collect and produce statistics as an integrated part of their regular work.

The NIS is also mandated to take charge in the maintenance, updating and implementation of statistical programs for the government and supply data for other users in the country as well as international organizations.

The Statistics Advisory Council and the Statistics Coordination Committee were established in January 2007 to assist NIS in technical coordination of the official statistics and regulated in the Sub-Decree on the Organization and Functioning of the National Statistical System.

### **1.2.1 Tasks and composition of Statistics Advisory Council (SAC)**

The Statistics Advisory Council (SAC) consists of 19 members. Chair is the Minister of Planning and members are Secretary of States from the main line ministries. The Function of the SAC is to advise the Minister of Planning, in relation to determining official statistical policies and requirements to be addressed by the NIS and designated statistical units. In detail SAC is to advise the Minister of Planning, in relation to:

- Determining official statistical policies.
- Identifying statistical priorities and requirements to be addressed by the National Institute of Statistics and designated statistical units.
- Improvement, extension and coordination of the national statistical system and designated official statistics provided for public purposes.
- Updating the Statistical Law, Sub-Decrees, and other regulations in relation to statistical matters.
- Annual, medium, and long term statistical priorities and work programs of the National Institute of Statistics and designated statistical unit involved in producing official statistics.
- Statistical master plan.
- Determining the dates of conducting the population, agriculture, and establishment censuses.
- Any other matters relating generally to the national statistical system and official statistics.
- Seeking assistance and support, financial and human resources required by the National Institute of Statistics and designated statistics units, in order to conduct censuses and surveys, and to produce and disseminate official statistics for public purposes.

The Statistics Advisory Council is established in accordance with Article 15 of the Statistics Law and the composition is defined in Article 13 in the Sub-Decree on Organization and Functioning of the National Statistical System.

### **1.2.2 Tasks and composition of Statistics Coordination Committee (SCC)**

The Statistics Coordination Committee (SCC) consists of 32 members. Chair is the Director General of NIS and the members are heads or vice heads of the statistical units responsible for the designated official statistics. The function of the SCC is to assist the NIS, in relation to preparation of statistical policies, procedures, and legislation for the national statistical system and official statistics. The SCC can establish technical working groups to

address specific statistical technical matters that require more detailed study and discussion. In detail SCC is to advise the NIS, in relation to:

- Preparation of the statistical policies, procedures, and legislations in relation with the national statistical system and official statistics.
- Establishment of an integrated national statistical system through effective coordination and cooperation on statistical activities and statistical development between designated statistical units, including the National Institute of Statistics, in order to be responsible for producing and disseminating official statistics.
- Improvement and extension of the national statistical system and official statistics for public purposes.
- Development of annual, medium and long term priorities and programs of work that should be adopted in relation to major aspects of the provision of those official statistics by the National Institute of Statistics and designated statistics unit.
- Preparation and updating of statistics master plan.
- Planning the conduct of population, agriculture, and establishment censuses.
- Establishment and annual updating of a register of businesses or population frame, and a directory of administrative and statistical data source in relation to the national statistical system.
- Implementation of cooperative agreements between ministries, institutions, and other government units on data sharing and the timely provision of accurate and reliable official statistics.
- Establishment of fixed-term or permanent technical working groups for specific statistics or other statistical matters in relation to the national statistical system and official statistics.
- Promulgation and implementation of statistical classifications and standards in relation to official statistics.
- Development of financial budgets and human resource plans for designated statistics units, including the National Institute of Statistics, in order to conduct census, survey, produce and disseminate official statistics for public purposes.

The Statistics Coordination Committee is established in accordance with Article 16 of the Statistics Law and the composition is defined in Article 17 in the Sub-Decree on Organization and Functioning of the National Statistical System:

### **1.3 Statistics Law and Sub-Decrees**

The Statistics Law governs all matters relating to collection, processing, compilation, analysis, publication and dissemination of statistical data and pertains to the whole Kingdom of Cambodia. Under the Law there are two Sub-Decrees that define the work for the national statistical system. NIS also has a Sub-Decree on the organization of NIS which is not described in this report.

The technical terms used in the legislation are presented in article 2 in the Statistics Law and in the Sub-Decree on the Organization and Functioning of the national statistical system. Some of the terms are presented in both documents.

### 1.3.1 Statistics Law

Besides defining the framework for which matters the Statistics Law governs, the Law also describes technical terms, principles and directions for the producers of designated official statistics. Censuses to be carried out are also presented.

Regarding coordination and cooperation the Statistics Law regulates that the NIS, under the Ministry of Planning, shall be responsible for making official statistical policies in establishing an integrated national statistical system, encompassing all designated official statistics and statistical organizational units within ministries and institutions. The Royal Government shall issue a Sub-Decree on the operation of the national statistical system and designated official statistics.

The Statistics Law regulates that a Statistics Advisory Council (SAC) shall be established to provide advice to the Ministry of Planning in facilitating the development of the National Statistical System (art. 15) and a Statistics Coordination Committee (SCC) shall be established to assist the National Institute of Statistics of the Ministry of Planning in the technical coordination of the official statistics of the Royal Government (art. 16). The composition, role and tasks of the Statistics Coordination Committee are determined by a Sub-Decree.

The statistical data produced by NIS and statistical units shall be published and disseminated to all users (art. 19) and all statistical data released by NIS are designated official statistics (art. 20)

The confidentiality of the data is regulated in article 22 where it says that NIS and the statistical units shall ensure confidentiality of all individual information obtained from respondents, except under special circumstances with the endorsement of DG, NIS and the consent of the Minister of Planning. Micro data can be released if the user ensures the confidentiality of the data and if the data is to be used for statistical purposes only.

### 1.3.2 Sub-Decree on Organization and Functioning of the NSS

The Sub-Decree on Organization and Functioning of the national statistical system governs all organizational matters and the functioning of the national statistical system, statistics obligations and all relevant matters in order to implement the Statistics Law.

The NIS is the official statistical policy-making body of the RGC, with the responsibility for establishing and leading an integrated NSS which covers all designated official statistics of ministries, government institution and the statistics units of provinces, municipalities, districts, khans and statistics staff in communes and sangkats.

The organizational structure of the national statistical system consists of the NIS, other designated statistical units and the staff employed in those units.

The establishment and directions of the SAC is regulated in the Sub-Decree, e.g. the composition and the regularity of the SAC meetings. The SCC is regulated in the same manner by the Sub-Decree. The members of the SAC and the members of SCC shall attend the meeting by invitation of the Chairperson.

The Sub-Decree also stipulates the confidentiality of results. No results or abstracts shall be published or disseminated in a manner that enables the identification of a particular person or organization.

### 1.3.3 Sub-Decree on Designated Official Statistics

The Sub-Decree on Designated Official Statistics assigns ministries and institutions of the Royal Government to collect and compile the designated official statistics by its own sector and governs all designated official statistics and designated official statistical units as specified in the Statistics Law.

The Sub-Decree stipulates the requirement of policy-makers in formulation and evaluating policies and socio-economic programs in responding to the socio-economic development of the country, as well as the information needs of decision-makers and researchers in the wider national and international communities.

All statistical data released by the NIS are designated official statistics, according to the Sub-Decree. NIS has an obligation to disseminate to the public basic and sector statistics, either produced by itself or in cooperation with other statistical units of the Royal Government such as:

- Census statistics
- Survey Statistics
- Economic Statistics
- Environment and National Resources Statistics
- Socio-Demographic Statistics
- Compendium Statistics

The Sub-Decree defines which surveys the statistical units shall be responsible for. Altogether 27 line ministries and government institutions including the National Bank of Cambodia are responsible for the Designated Official Statistics other than the statistics produced by NIS.

In chapter four of the Sub-Decree the data management and source data collection is regulated. Article 8 stipulates that all existing data collection shall be registered within the NIS. Planned and new data collection shall also be registered before commencement of work. A list of all existing data collections, cost and status of each data collection shall be submitted to the Council of Ministers annually.

The Designated Statistics units within Ministries and government Institution must submit all information and statistical data produced in electronic and paper form to the National Institute of Statistics and the Council of Ministers regularly and timely.

The NIS must establish and maintain a directory of administrative and statistical data sources, based on the metadata information collected through the registration process. The metadata directory must be updated on an annual basis and released via NIS website.

## **2 Activities in 2011**

### **2.1 The Statistics Advisory Council (SAC)**

The Statistics Advisory Council (SAC) was established in 2007 to provide advice to the Ministry of Planning in facilitating the development of the national statistical system. The composition, role and tasks of the SAC are determined by the Sub-Decree on Organization and Functioning.

#### **2.1.1 SAC meetings in 2011**

The SAC held a meeting on the 26<sup>th</sup> of May, 2011 where the main item on the agenda was to discuss how to allocate resources for an Agriculture census in Cambodia. NIS presented the plans of an Agriculture census and the need for more donor support in order for NIS to be able to conduct a census. Unfortunately some important donors were not present and the Chair asked NIS to continue finding a way to solve the resource issue since the Agriculture census is very important for Cambodia. The meeting also discussed a proposed statistics training course that the technical working group for training under the SCC had proposed. The urgent need for more statistical skills in the line ministries was addressed by the participants. Finally the issue on coordination of the produced statistics was presented by NIS and Sida advisors. According to the Sub-decree on designated official statistics the designated statistical units within ministries and government institutions shall submit all information and statistical data produced on electronic and paper form to the NIS and the Council of Ministers regularly and timely, which some units had not complied with. These ministries and government institutions were asked to submit the information urgently so NIS could report to the Council of Ministers as planned.

### **2.2 The Statistics Coordination Committee (SCC)**

The Statistics Coordination Committee (SCC) was established in 2007 to assist the National Institute of Statistics of the Ministry of Planning in the technical coordination of the official statistics of the Royal Government. The composition, role and tasks of the Statistics Coordination Committee are determined by the Sub-Decree on Organization and Functioning.

#### **2.2.1 SCC meetings in 2011**

There were only two SCC meetings in 2011 due to the heavy burden of conducting the 2011 Economic Census; the first ever in the history of Cambodia.

The 8<sup>th</sup> SCC meeting was held on the 20<sup>th</sup> of May 2011. H.E. Director General of NIS first presented current NIS activities. Sida advisors then presented ideas on how to carry out coordination of the national statistical system as it is much decentralized in Cambodia. A competence inventory of the staff in the national statistical system was presented and the meeting discussed the low capacity of staff in the national statistical system of Cambodia and how to improve it. To achieve quality and timely statistics, within designated official statistics institutions, short training courses in Basic statistics is urgently needed. There is also lack of skills in English, Computer-Word, Excel, SPSS, STATA, ICT and subject

oriented matter area. A technical working group for training was initiated by NIS and approved by the meeting. The technical working group aim was to further analyze the results of the competence inventory and to suggest what training activities NIS could carry out for the national statistical system.

The 9<sup>th</sup> SCC meeting was held on the 15<sup>th</sup> of September 2011. H.E. Director General of NIS first presented current NIS activities. NIS then reported from the discussions of the technical working group of training for the national statistical system. According to the report of the technical working group, the necessary statistical training for the concerned officials should consist of training on basic statistics and then follow training on SPSS for data analysis. Each course could account for 5 mornings or 5 afternoons with 25 to 30 participants. The SCC agreed on the proposal. NIS also presented the main findings of the first annual report of the national statistical system 2010. NIS suggested that the ministries and departments should help fill in the questionnaire and send back timelier as the report of the national statistical system will be produced yearly and sent to the Council of Ministers no later than July each year. Punctuality and good quality of the compiling and making of the reports are essential. The questionnaire for collecting information for the annual reporting was discussed to improve the data collection next year. In particular the issue on calculating the budget for statistics work was addressed. NIS presented its website and reported that the national statistical system is available from NIS website; i.e. the websites of the ministries and departments are linked enabling the users and researchers to easily find any statistical reports published.

### **2.2.2 Technical working group on training in 2011**

A technical working group on training was established and consensually approved at the SCC meeting on 20<sup>th</sup> of May 2011. The technical working group consists of a chair and two vice chairs from NIS and three members of SCC assigned by the SCC. The assigned members were Ministry of Environment, Ministry of Women's Affair, Ministry of Education Youth and Sports and the National Employment Agency.

The technical working group on training met the 2<sup>nd</sup> of September 2011 to discuss the competence inventory NIS conducted in 2010/2011. According to the competence inventory the number of staff with enough statistical skills is far too low for producing statistics within the national statistical system and training is therefore required. There is also a need for ICT training and to improve the capacity of writing and speaking English. According to the technical working group the most urgent need was, however, to improve the level of statistics among a large share of the staff in the national statistical system. The technical working group therefore proposed to start with basic statistics training and then a follow up course with SPSS for statistical analysis.

## **2.3 Activities of NIS in 2011**

NIS is the coordinating body of the national statistical system and has carried out several activities in 2011 to improve the coordination.

### **2.3.1 Organizing meetings in the national statistical system**

NIS is responsible to organize meetings in the national statistical system, i.e. SAC, SCC and technical working groups under SCC, and a secretariat has been installed. In 2011

NIS organized one SAC and two SCC meetings and also one meeting in the technical working group on training. Minutes are taken by NIS. For more information of the meetings see section 2.1, 2.2 and 2.3. To improve the effectiveness of the meetings NIS prepared checklists in 2011 for the task of organizing the meetings, e.g. preparations to be made and how to carry out these meetings.

### **2.3.2 Data collection**

In 2011, the data collection for meta data/source data for 2010 was finalized. A database for the collected information was created at NIS and the information collected was entered into the database. Some information was used in the annual reporting and also presented at NIS website under the new portal for the national statistical system.

NIS made an evaluation of the data collection before planning for the next collection. The experience was that it was difficult for the line ministries and institutions in the national statistical system to send the questionnaires timely. The respondents encountered problems when filling in the questionnaire, not sure how to fill in part of the questions. In particular the question on budget of the statistical unit caused problems as the budget for statistical work was not known to the respondent and the staff also could work with other tasks. It was also not clear what costs were included as some line ministries only reported salaries and others total costs including equipment and other cost.

A revised questionnaire was presented and discussed at the SCC meeting the 15<sup>th</sup> of September 2011 and some changes were made after the meeting. Instead of asking for the budget of the statistical unit the budget is asked for each survey to clarify what costs to report and in order to comply with the Sub-Decree on Designated Official Statistics.

### **2.3.3 Compiling the annual report of the national statistical system 2011**

In 2011 NIS produced an annual report of the national statistical system. Given that the report was compiled for the first time, it was decided that the report should be comprehensive describing the whole system and all meetings carried out so far in SAC and SCC. As of 2011 the report will focus only on activities the previous year and some general presentation of the system.

The information from the collection of meta/source data was used to compile the report. Due to delays in the responses there was not enough time to thoroughly contact them and check the budget response given. The quality in that question was therefore poor. Overall, the difficulties in the first data collection caused a delay in the compilations and the annual report was therefore sent to the Council of Ministers with a slight delay (beginning of August).

### **2.3.4 Compiling a summary report from a competence inventory**

In 2010 a questionnaire on the competence of the staff in line ministries and government institutions in the national statistical system was sent out. The data collection finished in the beginning of 2011 when 17 out of 27 line ministries had responded. A summary report on the results was compiled and presented to SCC and SAC. The outcome of the competence inventory was to install a technical working group on training to discuss the need for training of the staff in the national statistical system.

### **2.3.5 Improving NIS website**

In 2011 NIS revised its website. One of the objectives of the revision was to disseminate more information about the national statistical system. The outcome was a portal for the national statistical system accessed through the front page of NIS website. The portal gives information of the system, the legislation and links to the websites of the producers of designated official statistics. This is a preparation for a directory of the national statistical system on the website that NIS is required to have according to the Sub-Decree on designated official statistics.

## 3 The National Statistical System in 2011

### 3.1 Cost and staff in the National Statistical System 2011

According to the Sub-Decree on designated official statistics, all statistics should be reported to NIS including the cost of each data collection of the designated official statistics. Many of the designated statistical units have great difficulties to calculate the total costs, as they only know the salary cost of the central staff and not other costs such as equipment and data collection through administrative reporting. The staff may also work with other tasks and only part time with statistical production. Therefore it is impossible to present the costs for the national statistical system. A summary of what has been reported for each survey as estimated or actual costs is presented in appendix 1. Note that the quality in the reported costs is probably very low and difficult to compare between the statistical producers.

The total number of staff producing the designated official statistics is 698, the National Training Board is not an assigned producer according to the Sub-Decree on Designated Official Statistics, yet regulated elsewhere. Ministry of Religion and Cults has not submitted any information to NIS and is therefore not included. Only central staff is included.

**Table 1 Total Number of Staff**

Ministry*	Total
Ministry of Planning/NIS	313
Council of Ministers (COM)	6
Ministry of Interior (MoInt)	34
Ministry of Economic and Finance (MEF)	27
Ministry of Agriculture, Forestry and Fisheries (MAFF)	10
Ministry of Rural Development (MRD)	5
Ministry of Commerce (MOC)	31
Ministry of Industry Mines and Energy (MIME)	11
Ministry of Education youth and sports (MOEYS)	12
Ministry of Social Affairs Veterans and Youth Rehabilitation (MOSALVY)	3
Ministry of Land Management Urban Planning and Construction (MLMUC)	24
Ministry of Environment (MOE)	32
Ministry of Water Resources and Meteorology (MWRM)	4
Ministry of Information (MOI)	6
Ministry of Justice (MOJ)	2
Ministry of National Assembly-Senate Relations and Inspection (MNASRI)	20
Ministry of Post and Telecommunication (MPT)	3
Ministry of Health (MOH)	9
Ministry of Public works and Transportation (MPWT)	5
Ministry of Culture and Fine Arts (MCFA)	4
Ministry of Tourism (MOT)	20
Ministry of Women's Affairs (MOWA)	5
Ministry of Labour and Vocational Training (MLVT)	11
State secretariat of civil aviation (SSCA)	4
State Secretariat of Public Functions (SSPF)	5
National Bank in Cambodia (NBC)	22
Council for the development of Cambodia (CDC)	2
National Training Board (NTB)	68
<b>Total</b>	<b>698</b>

\* Note: Ministry of Religion and Cults not included.

There are only a few producers of the designated official statistics that receive donor support. MoP/NIS receives extensive support and has long term advisors assisting along with donor support in equipment, supplies and data collection. Apart from NIS, only six of the designated official statistical units receive donor support. MoEYS and MRD have received support in equipment, supplies and data collection. Ministry of Health has had both an advisor to assist and equipment support, whereas MOT and NTB have only received advisory assistance. The CDC has had some support in supplies.

### **3.2 The statistics produced**

NIS is producing the main surveys as mentioned in the Sub-Decree on Designated Official Statistics. There are some indexes, annual economic, environment and natural resources statistics surveys and compendium statistics where NIS cannot comply due to lack of resources. Besides the statistics produced by the NIS, there are 104 number of data collections that should be carried out by the statistical units within line ministries, institutions and National Bank of Cambodia. Most statistics are produced and disseminated to the public according to the Sub-Decree. According to the information collected for the annual report the total number of statistics produced is 109 in 2011. A few have not been collected for some time or not according to the frequency in the Sub-Decree. For more information, see appendix 1 and 2.

Of the 109 designated official statistics produced in 2011 more than 70 percent of the statistics are from administrative records.

When NIS produces statistics, data from administrative records is somewhat used. The data derives, however, mainly from data collection through a survey or a census. The most common unit is the household. In 2011 NIS conducted for the first time an economic census, with data collection from establishments in Cambodia.

Other statistical producers from line ministries, institutions and NBC are mainly collecting data through administrative records. Some combine an administrative data collection with a small survey or make compilations. Only a few conduct surveys and census; MoEYS collect data for the whole population as a census and MCFA and NBC both conduct surveys.

**Table 2 Data source for the designated official statistics**

Ministry*	Data source for statistics			
	Adm record	Survey	Census	Other
MoP/NIS	3	3	3	1
COM	0	0	0	1
MoInt	1	0	0	0
MEF	0	0	0	5
MAFF	0	0	0	8
MRD	7	0	0	0
MOC	1	0	0	0
MIME	5	0	0	0
MOEYS	0	0	3	0
MOSALVY	5	0	0	0

CDC	1	0	0	0
NTB	1	0	1	1
<b>Total</b>	<b>65</b>	<b>3</b>	<b>4</b>	<b>19</b>

\* Note: Ministry of Religion and Cults not included.

### 3.3 Regional breakdown

Most of the statistics produced can only be presented for the country as a whole. For censuses conducted by NIS it is possible to breakdown the results on village level. There are also some administrative records that the line ministries use for the designated official statistics where the level of presentation is on provincial level. Only a few of the line ministries can present the statistics on lower level than provincial level, i.e. district and commune. At village level MCFA and MOE are the only ministries to present designated official statistics apart from MoP/NIS. For each survey the regional breakdown, see appendix 2.

**Table 3 Designated official statistics regional breakdown**

Ministry*	Regional Level				
	Cambodia	Province	District	Commune	Village
MoP/NIS	4	3	2	2	2
COM	1	0	0	0	0
MoInt	0	1	0	0	0
MEF	6	6	6	6	0
MAFF	7	6	0	0	0
MRD	0	7	0	0	0
MOC	1	0	0	0	0
MIME	5	0	0	0	0
MOEYS	3	4	3	1	0
MOSALVY	5	0	0	0	0
MLMUC	3	0	0	0	0

CDC	1	0	0	0	0
NTB	1	0	0	0	0
<b>Total</b>	<b>76</b>	<b>47</b>	<b>18</b>	<b>13</b>	<b>5</b>

\* Note: Ministry of Religion and Cults not included

## 4 The designated official statistics in 2011

### 4.1 National Institute of Statistics (NIS)

#### 4.1.1 Task and Responsibilities

The National Institute of Statistics (NIS), which is part of the Ministry of Planning, is the focal point on statistical matters in Cambodia. The NIS compiles and consolidates statistics provided by decentralized offices and also collects primary data through household and establishment surveys and population, agricultural and economic censuses. All data released by NIS are designated official statistics.

The National Institute of Statistics is the official national statistical institution of the Royal Government and shall have responsibility for the following tasks:

- Collect, process, compile, analysis, publish, and disseminate official statistics and other information in relation to the statistical matters.
- Research, develop compilation methods, and develop statistical model and statistical techniques in order to improve the quality of official statistics.
- Ensure coordination of the operations of designated statistical units.
- Formulate statistical policies and standards for the carry out by those statistical units.
- Provide advice and assistance to designated statistical units in relation to official statistics.
- Provide liaison with other countries and international organization.

#### 4.1.2 Statistical Surveys and Objectives

##### **Establishment census statistics, every 10 year**

Statistics are collected for providing the fundamental statistics on the current status of the business activities of the establishments and enterprises including the financial aspects, which central and local government require for profiling the nation, policy-making, calculating national account etc., and which academic researchers and other users need for their own study. Also for providing the directory of establishments and enterprises as the master sampling frame of various sample surveys on businesses.

##### **Socio-economic survey statistics, annual**

A socio-economic survey (CSES) is conducted annually since 2007 and is comparable with the 2004 CSES. The statistics are collected to provide a comprehensive set of indicators on living conditions in Cambodia, covering the main socio-economic areas such as health, education, housing conditions, economic activities, victimization etc. the RGC using these data to monitor the NSDP and to develop effective policies for reducing poverty in Cambodia.

##### **National accounts statistics, quarterly and annual**

Statistics are collected to compile the National Account bulletin and calculate gross domestic product estimates by sector and gross value adds estimates to be used in monitoring the economic growth and development in Cambodia. The updating of the National Account is trying to maintain the consistency of the whole series.

### **Consumer Price Indices, monthly, quarterly and annual**

Statistics are collected for measuring the inflation in Cambodia, comparing CPI month to month and year to year. CPI is used in the compilation of the National Accounts and for NSDP. CPI is also used for calculating the salary of government and company staff.

### **Statistical yearbooks by national, capital, provincial levels, annual**

Statistics are collected and presented in a yearbook to reflect the progress in the development of Cambodia. The Cambodian official statistics are vital for decision making, and evaluation by the RGC of economic growth and poverty reduction strategies, policies and programs.

### *Compiled statistics in 2011 through other sources*

#### **Education and literacy survey statistics, every five years**

Some indicators included in CSES. The inter-censal population survey is conducted in 2013.

#### **Informal sector and non-observed economy survey statistics, every five years**

Included in the National Accounts.

#### **Crime and justice survey statistics, every five years**

Some indicators included in CSES. A separate survey is currently not planned for.

#### **Labour force survey statistics (LFS), annual**

Main indicators are collected in the CSES. In 2012 a separate LFS is conducted by NIS with technical assistance by ILO.

#### **Child labour survey statistics**

Some indicators included in CSES. In 2012 a separate Child Labour Survey is conducted by NIS with technical assistance by ILO.

#### **Demographic survey statistics**

Included in inter-censal population survey to be conducted in 2013.

#### **Household income and expenditure statistics, annual**

Included in Socio-economic survey statistics.

#### **Agricultural and industrial production indices, quarterly and annual**

Included in the National Accounts.

#### **Retail and wholesale trade statistics and indices, quarterly and annual**

Included in the National Accounts.

### ***Surveys not conducted in 2011***

Several surveys mentioned in the Sub-Decree on designated official statistics are not conducted annually, e.g. census and intra censal surveys, or because lack of resources. The following statistics have not been produced in 2011.

- Population census statistics, every 10 year
- Agricultural census statistics, every 10 year
- Inter-censal population survey statistics, every 10 years
- Demographic and health survey statistics, every 5 years
- Crime and justice survey statistics, every 5 years
- Establishment survey statistics, annual
- Labour force survey statistics (LFS), annual
- Agricultural finance survey statistics, annual
- Demographic survey statistics
- Integrated business registers statistics, annual
- Export and import price indices, monthly and quarterly
- Sector satellite accounts
- Labour and wage cost indices
- Producer and services price index
- Environment and natural resources statistics
- Environment and natural resources satellite accounts
- Demographic and population statistics, annual
- Other social statistics, annual
- Statistical handbooks by municipal, district, khan, commune, sangkat levels, annual
- Economic and environment indicators, annual
- Socio-demographic indicators, annual

#### **4.1.3 Users of the Statistics**

Main users of NIS statistics are RGC, ministries, researchers, private sector, national and international organization, e.g. NBC, World Bank, ADB and IMF.

#### **4.1.4 Name of reports and year of dissemination**

## 4.2 Council of Ministers

### 4.2.1 Task and Responsibilities

The Council of Ministers is headquarter of the Prime Minister and responsible for coordination of all sectors in Cambodia. The Council of Ministers tasks are to review and improve on draft sub-decrees, laws and policies; collect and compile data from all ministries, institution; make economic socio and cultural analysis; and research important topics.

### 4.2.2 Statistical Surveys and Objectives

#### **Economic, social and cultural conditions analysis statistics, monthly and annual**

The objective is to compile statistics to analyse and evaluate in five areas: first for monitoring consumer price index, exchange rates and the inflation rate; second, the national budget; third, monetary; fourth, agricultural, industry, services and cultural; fifth, trade balance and reports to government leaders.

### 4.2.3 Users of the Statistics

Main users of the statistics are RGC, ministries, institutions and others that have decision making authorization and policy makers.

#### 4.2.4 Name of reports and year of dissemination

Name of statistics	Reference period	Data published	Name of the latest report
Economic, social and cultural conditions analysis statistics	2011	2012	Economic, social and cultural conditions analysis, Bulletin November 2011

### 4.3 Ministry of Interior

#### 4.3.1 Task and Responsibilities

The Ministry of Interior's main tasks are to guide and control all levels of provincial administrative authorities, supervise the national police, protect social order and security, and provide safety to the people of the Kingdom of Cambodia.

#### 4.3.2 Statistical Surveys and Objectives

##### **Citizen statistics, annual**

The objective is to compile statistics to manage population statistics, security and social arrangement, and manage social arrangement.

##### **Identification card statistics, annual**

No information from the line ministry.

##### **Vital registration statistics, annual**

No information from the line ministry.

##### **Criminal offence and cleared-up statistics, annual**

No information from the line ministry.

##### **Persons in prison and correction statistics, annual**

No information from the line ministry.

##### **Immigration statistics, annual**

No information from the line ministry.

##### **Political party statistics, annual**

No information from the line ministry.

##### **Non-government organization statistics, annual**

No information from the line ministry.

##### **New establishment of municipality, district, khan, sangkat, commune and village statistics**

No information from the line ministry.

#### 4.3.3 Users of the Statistics

Main users of the statistics are RGC, Ministry of Interior, other ministries and institutions.

#### 4.3.4 Name of reports and year of dissemination

Name of statistics	Reference period	Data published	Name of the latest report
Citizen statistics	2011	2012	Citizen statistics report 2011*
Identification statistics	2011	2012	Identification statistics report 2011*

\* Published for internal use and to Council of Ministers.

## 4.4 Ministry of Economy and Finance

### 4.4.1 Task and Responsibilities

Ministry of Economy and Finance shall perform guidance and administration of the economy and finance of the Kingdom of Cambodia in order to support economic development and to improve the living standards of Cambodian people based on the principles of a free market economy and social equality.

### 4.4.2 Statistical Surveys and Objectives

#### **Government finance statistics, monthly and annual**

The objective is to compile statistics to analyze and evaluate government economic and finance situation.

#### **Public debt statistics, quarterly and annual**

The objective is to compile statistics to analyze and evaluate public debt to monitor annually the economic and finance situation in the country.

#### **Government budget implementation statistics, monthly and annual**

The objective is to compile statistics to analyze and evaluate government economic and finance situation.

#### **Excise statistics, annual**

The objective is to compile statistics to analyze and evaluate annual excise and evaluate the annual economic and finance situation.

#### **Goods transported by road, railway, water and air statistics, quarterly and annual**

Not collected statistics.

## Non tax revenue statistics, annual

The objective is to compile statistics to analyze and evaluate non tax revenue.

## Foreign trade statistics, monthly, quarterly and annual

Statistics are collected to analyze and evaluate on export and import annually.

### 4.4.3 Users of the Statistics

Main users of the statistics are RGC, ministries, institutions, NGOs, researchers and students.

### 4.4.4 Name of reports and year of dissemination

Name of statistics	Reference period	Data published	Name of the latest report
Government finance statistics	2011	2012	TOFE: Budget Implementation for 2011
Public debt statistics	2011	2012	TOFE: Budget Implementation for 2011
Government budget implementation statistics	2011	2012	TOFE: Budget Implementation for 2011
Excise statistics	2011	2012	TOFE: Budget Implementation for 2011
Goods transported by road, railway, water and air statistics	-	-	-
Non tax revenue statistics	2011	2012	TOFE: Budget Implementation for 2011
Foreign trade statistics	2011	2012	TOFE: Budget Implementation for 2011

## 4.5 Ministry of Agriculture, Forestry and Fisheries

### 4.5.1 Task and Responsibilities

Ministry of Agriculture, Forestry and Fisheries main tasks and obligations are: to organize and operate the development policies in agriculture sector aimed to improve the living standards of the population; to participate in the preparation of the land reform and utilization policies and in other agriculture activities, e.g. enhancing export of food and agricultural products and establishing pricing policies; to co-ordinate, monitor and evaluate the implementation of policies and activities for development of agriculture; to monitor and manage natural resources of agriculture sector and facilitate activities of exploitation on these resources to meet domestic demands with respect to the stability of ecology system; to advise farmers on technologies to improve production and increase productivity and other agricultural land development; to conduct research, studies and extension on agricultural technology, science and economics for all sub-sectors.

### 4.5.2 Statistical Surveys and Objectives

#### Agricultural commodity price statistics, monthly, quarterly and annual

The objective is to compile statistics to support farmers, business men and others relevant for decision making as what, when, where and how much products they should sell; to support farmers to make production plans relying on market demand and understanding about economy; to increase primary living standards and poverty reduction; dissemination to farmers and customers about price of goods; to participate in the development by providing good knowledge of market and agricultural promotion officer.

### **Area, yield and quantity of crop production survey statistics, by season and annual**

The objective is to compile statistics to implement strategic development plans and other relevant policies; to evaluate food balance of demand and supply and export ability; to consider about gross domestic product; to poverty reduction on rural areas; to improve education and technical dissemination to farmers.

### **Livestock production and animal health statistics, annual**

The objective is to compile statistics to analyze livestock production, job increase and how to make a profit for farmers; for poverty reduction on rural area; to produce gross domestic product of livestock product and animal health; to implement the NSDP; to solve food security; and finally to make profit for farmer and economy.

### **Fishery statistics, annual**

The objective is to compile statistics to implement the NSDP; for poverty reduction; to solve food security; to analyze gross domestic product of fishery sector; to evaluate food balance between supply and demand; to push aquaculture, community fishery and strengthening natural resources protection.

### **Forestry statistics, annual**

The objective is to compile statistics to show about forestry development; monitoring and evaluation of NSDP; to analyze gross domestic product of forestry sector; to consider about forestry export; and to reflect on population knowledge on natural resources protection.

### **Rubber production statistics, annual**

The objective is to compile statistics to monitor the implementation of rubber production to serve the NSDP; to show rubber improvement in the sector; to analyze gross domestic product on rubber production sector; to analyze the export and monetary situation.

### **Agricultural machinery statistics, annual**

The objective is to compile statistics to monitor the implementation of the NSDP; to improve the agricultural production; to reduce animal labour; for poverty reduction on rural area; and to improve the use of agricultural machines.

### **Agricultural drug and equipment statistics, annual**

The objective is to compile statistics to monitor the implementation of the national strategic development plan; to evaluate on supply and demand to push and increase crop production; for environment protection; and for poverty reduction on rural area.

#### **4.5.3 Users of the Statistics**

Main users of the statistic are farmers, businessmen, RGC, private sector, researchers, students, policy makers, international organizations and national economy analysis, etc.

#### 4.5.4 Name of reports and year of dissemination

Name of statistics	Reference period	Data published	Name of the latest report
Agricultural commodity price statistics	2011	2012	Annual Report 2011-2012 and Work Plan 2012-2013
Area, yield and quantity of crop production survey statistics	2011	2012	Annual Report 2011-2012 and Work Plan 2012-2013
Livestock production and animal health statistics	2011	2012	Annual Report 2011-2012 and Work Plan 2012-2013
Fishery statistics	2011	2012	Annual Report 2011-2012 and Work Plan 2012-2013
Forestry statistics	2011	2012	Annual Report 2011-2012 and Work Plan 2012-2013
Rubber production statistics	2011	2012	Annual Report 2011-2012 and Work Plan 2012-2013
Agriculture machinery statistics	2011	2012	Annual Report 2011-2012 and Work Plan 2012-2013
Agriculture drug and equipment statistics	2011	2012	Annual Report 2010-2011 and Work Plan 2012-2013

### 4.6 Ministry of Rural Development

#### 4.6.1 Task and Responsibilities

Ministry of Rural Development's tasks are to coordinate, cooperate, implement, monitor and evaluate rural development projects and programs in order to rehabilitate and help develop the country's rural areas by assisting the rural population; to coordinate the operational efforts of the various line ministries and assistance programs; to actively undertake independent research initiatives to practically develop the rural areas of Cambodia by liaising widely, in order to assess likely needs and investigate possible solutions that would maximize identified opportunities, etc.

#### 4.6.2 Statistical Surveys and Objectives

##### **Rural road statistics, annual**

The objective is to compile statistics to compare achievements with plans; evaluate strengths, weaknesses, issues and solve the issues for next year; prepare budget strategic plan; prepare three years investment rolling plan and prepare annual plan for next year.

##### **Rural clean water statistics, annual**

The objective is to compile statistics to compare achievements with plans; evaluate strengths, weaknesses, issues and solve the issues for next year; prepare three years public investment rolling plan; prepare strategic budget plans and prepare annual plans for next year and make policies.

##### **Rural sanitary latrine statistics, annual**

The objective is to compile statistics to compare achievements with plans; evaluate strengths, weaknesses, issues and solve the issues for next year; prepare three years public investment rolling plan; prepare strategic budget plans; prepare annual plans for next year and make policies.

### **Minority ethnic group statistics, annual**

The objective is to compile statistics to compare achievements with plans; evaluate strengths, weaknesses, issues and solve the issues for next year; prepare public investment programme and budget strategic plan; prepare annual plans and make policies.

### **Small-scale irrigation system statistics, annual**

The objective is to compile statistics to compare achievements with plans; evaluate strengths, weaknesses, issues and solve the issues for next year; prepare three years public investment rolling plan; prepare strategic budget plans; prepare annual plans for next year and make policies.

### **Rural market statistics, annual**

Not collected statistics.

### **Rural development credit statistics, annual**

The objective is to compile statistics to compare achievements with plans; evaluate strengths, weaknesses, issues and solve the issues for next year; prepare public investment programme and budget strategic plan; prepare annual plans and make policies.

### **Rural school construction statistics, annual**

The objective is to compile statistics to compare achievement with plan; evaluate strengths, weaknesses, issues and solve the issues for next year; prepare public investment programme and budget strategic plan; prepare annual plans and make policies.

## **4.6.3 Users of the Statistics**

Main users of statistics are decision makers, researchers, strategic planners and other relevant policy makers.

## **4.6.4 Name of reports and year of dissemination**

<b>Name of statistics</b>	<b>Reference period</b>	<b>Data published</b>	<b>Name of the latest report</b>
Rural road statistics	2011	2012	Summing Up the Annual Report for 20011 and Work Plan 2012
Rural clean water statistics	2011	2012	Summing Up the Annual Report for 2011 and Work Plan 2012
Rural sanitary latrine statistics	2011	2012	Summing Up the Annual Report for 2011 and Work Plan 2012
Minority ethnic group statistics	2011	2012	Summing Up the Annual Report for 2011 and Work Plan 2012
Small-scale irrigation system statistics	2011	2012	Summing Up the Annual Report for 2011 and Work Plan 2012
Rural market statistics*	-	-	n/a
Rural development credit statistics	2011	2012	Summing Up the Annual Report for 2011 and Work Plan 2012
Rural school construction statistics	2011	2012	Summing Up the Annual Report for 2011 and Work Plan 2012

\* Not collected.

## 4.7 Ministry of Commerce

### 4.7.1 Task and Responsibilities

Ministry of Commerce is responsible for regulating and promoting commerce and trade of Cambodia. It works both domestically and internationally, and within the context of ASEAN, to create opportunities and a good working environment for producers and exporters.

### 4.7.2 Statistical Surveys and Objectives

#### Trade registration statistics, annual

The objective is to compile statistics to carry out economic analysis and market studies.

#### Trademark registration statistics, annual

The objective is to compile the number of trademark registration statistics monthly, quarterly, and semi-annual and annually to submit to the ministry; for training on copyright and law enforcement.

### 4.7.3 Users of the Statistics

Main users of the statistics are businessmen, researchers, economic analysis and marketing researchers.

### 4.7.4 Name of reports and year of dissemination

Name of statistics	Reference period	Data published	Name of the latest report
Trade registration statistics	2011	2012	Report for 2011 and Work Plan 2012
Trademark registration statistics	2011	2012	Report for 2011 and Work Plan 2012

## 4.8 Ministry of Industry, Mines and Energy

### 4.8.1 Task and Responsibilities

Ministry of Industry, Mines and Energy tasks are to coordinate projects and tasks within its responsibilities, develop and implement regulations and policies, monitor and evaluate the development of the industry, water supply, national standard, metrology, mine and energy sectors.

### 4.8.2 Statistical Surveys and Objectives

#### Industry and handicraft statistics, monthly and annual

Statistics are collected for developing and implementing government policy on manufacturing SME sector and regulating small medium and large size industries; handicrafts; technology adoption and innovation policy and strategy in industry sector.

## Foreign investment statistics, quarterly and annual

The objective is to compile statistics to know about changing situation of assets and liabilities in Cambodia and direct investment abroad.

### 4.27.3 Users of the Statistics

Main users of the collected statistics are RGC, policy makers, NBC, MoP and other ministries, national and international institutions (e.g. IMF, ADB, WB and ASEAN), researchers and financial institutions.

### 4.27.4 Name of reports and year of dissemination

Name of statistics	Reference period	Data published	Name of the latest report
Balance of payments statistics	2011	2011	Cambodia Balance of Payments Statistics Bulletin Series No. 32 Second Quarter, 2011
External debt statistics	2011	2011	Cambodia Balance of Payments Statistics Bulletin Series No. 32 Second Quarter, 2011
Monetary and finance statistics	2011	2011	Cambodia Balance of Payments Statistics Bulletin Series No. 32 Second Quarter, 2011
International trade in goods statistics	2011	2011	Cambodia Balance of Payments Statistics Bulletin Series No. 32 Second Quarter, 2011
International trade in services statistics	2011	2011	Cambodia Balance of Payments Statistics Bulletin Series No. 32 Second Quarter, 2011
Foreign investment statistics	2011	2011	Cambodia Balance of Payments Statistics Bulletin Series No. 32 Second Quarter, 2011

## 4.28 Council for the Development of Cambodia

### 4.28.1 Task and Responsibilities

The Council for the Development of Cambodia (CDC) tasks are to serve as the “focal point” and the “One-Stop Service” in the contact between the RGC and the countries, international organizations and NGOs which are donors to Cambodia, and to serve as the focal point and “One-Stop Service” in the contact among ministries and other governmental institutions in the coordination of the receiving and/or distributing of development assistance; to formulate and implement strategies on the management of development cooperation to strengthen the ownership and the leadership of the RGC in the development activities and to strengthen partnership with the development partners community; to mobilize and allocate development assistance for the implementation of the priorities set out in the NSDP and the Sector Development Programs. To lead the harmonization of the implementation of development projects and programs by development partners to enhance the effectiveness of development assistance; to cooperate with the relevant ministries and institutions related to the donors and international organization and investment.

### 4.28.2 Statistical Surveys and Objectives

#### Use of development cooperation financing statistics, annual

No information from the line ministry.

#### Statistics on public investment project approvals of ministries and institutions, semester and annual

The objective is to compile statistics for investors to analyze and present to local and international investors.

## Statistics on private investment project approvals including investment projects in special economic zone, monthly, quarterly and annual

No information from the line ministry.

### 4.28.3 Users of the Statistics

Main users of the collected statistics are institutions the relevant with investment and embassy in Cambodia.

### 4.28.4 Name of reports and year of dissemination

Name of statistics	Reference period	Data published	Name of the latest report
Use of development cooperation financing statistics*	-	-	-
Statistics on public investment project approvals of ministries and institutions	2011	-	-
Statistics on private investment project approvals including investment projects in special economic zone*	-	-	-

\* No information.

## 4.29 National Training Board-NTB

### 4.29.1 Task and Responsibilities

The Functions and Duties of National Training Board (NTB) are to prepare Policy and National Training Plan for Technical Vocational Education & Training (TVET); to coordinate and orient the work of Training Vocational Education and Training to meet the demand driven needs of the national economy in the present and future; to propose a project to renew and further develop the TVET System to be: i) quality driven and effective, ii) linked to national development priorities, iii) respond to the needs of trade, industry agriculture and service sectors, and iv) relationship between workplace and institutions

### 4.29.2 Statistical Surveys and Objectives

#### Labour market information statistics, annual

Objective is to collect, compile data, and publish demand labour information about government human resources for using in 2011 to 2015 by type of job, frameworks, constitutions, level of education, skill demand of foreign languages, experiences and wage or salary.

### 4.29.3 User of the Statistics

Main users of statistics are policy makers, plan makers, employers, education providers, advisors about skills, job services providers, researchers, job seekers and public.

### 4.29.4 Name of reports and date of publish

Name of statistics	Reference period	data published	Name of the latest report
Labour Market Information	2011	2012	n/a

## Appendix 1:

### Current status and total cost of surveys in the national statistical system

#### 1. National Institute of Statistics

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Population census statistics*	No	-	-
Agriculture census statistics*	No	-	-

Persons in prison and correction statistics	Yes	n/a	n/a
Immigration statistics	Yes	n/a	n/a
Political party statistics	Yes	n/a	n/a
Non-government organization statistics	Yes	n/a	n/a
New establishment of municipality, district, khan, Sangkat, commune and village statistics	Yes	n/a	n/a

## 4. Ministry of Economy and Finance

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Government finance statistics	Yes		64,800
Public debt statistics	Yes		**
Government budget implementation statistics	Yes		**
Excise statistics	Yes		**
Goods transported by road, railway, water and air statistics*	No	-	-
Non tax revenue statistics	Yes		**
Foreign trade statistics	Yes		**

\* Not produced.

\*\* Six statistical surveys combined and presented in Government finance statistics.

## 5. Ministry of Agriculture, Forestry and Fisheries

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Agricultural commodity price statistics	Yes	44,500	
Area, yield and quantity of crop production survey statistics	Yes	34,000	
Livestock production and animal health statistics	Yes	n/a	n/a
Fishery statistics	Yes	n/a	n/a
Forestry statistics	Yes	n/a	n/a
Rubber production statistics*	No	-	-
Agriculture machinery statistics	Yes	n/a	n/a
Agriculture drug and equipment statistics	Yes	n/a	n/a

\* Not produced.

## 6. Ministry of Rural Development

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Rural road statistics	Yes	37,200	
Rural clean water statistics	Yes	37,200	
Rural sanitary latrine statistics	Yes	37,200	
Minority ethnic group statistics	Yes	37,200	
Small-scale irrigation system statistics	Yes	37,200	
Rural market statistics*	No	-	-
Rural development credit statistics	Yes	37,200	
Rural school construction statistics	Yes	37,200	

\* Not produced.

## 7. Ministry of Commerce

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Trade registration statistics	Yes	54,480	
Trademark registration statistics	Yes	n/a	n/a

## 8. Ministry of Industry, Mines and Energy

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Industry and handicraft statistics	Yes	4,740	
Energy statistics	Yes	n/a	n/a
Mineral resources statistics	Yes	n/a	n/a
Clean water statistics	Yes	n/a	n/a
Industrial property registration statistics	Yes	n/a	n/a

## 9. Ministry of Education Youth and Sport

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Pre-school and primary education statistics	Yes		62,295*
Lower and upper secondary education statistics	Yes		*
Higher education statistics	Yes		1,757
Non-formal education statistics	Yes	48,300	

\* Combined total cost of pre-school and primary education and lower and upper secondary education.

## 10. Ministry of Social Affairs Veterans and Youth Rehabilitation

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Social affairs, veteran and youth rehabilitation statistics	Yes		1,053
Organization partners registered the memorandum on social, veteran and youth rehabilitation works statistics	Yes		882*
Statistics on national social security fund for general population	Yes		*
National social security fund for civil servants statistics	Yes		1,251**
Statistics on national social security fund for veterans	Yes		**

\* Combined total cost of organization partners registered the memorandum on social, veteran and youth rehabilitation works and national social security fund for general population.

\*\* Combined total cost of national social security fund for civil servants and on national social security fund for veterans.

## 11. Ministry of Land Management, Urban Planning and Construction

Name of Statistics	Data Collection in 2011	Total Cost	
		Estimated Budget	Actual Budget
Construction sector statistics	Yes	n/a	n/a
Land sector statistics	Yes	n/a	n/a
Land management and urban planning sector statistics	Yes	n/a	n/a

## 12. Ministry of Environment

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Natural resources change in natural protection areas statistics	n/a	n/a	n/a
Climate change statistics	n/a	n/a	n/a
Solid and liquid waste pollutions and air pollution statistics	n/a	n/a	n/a

## 13. Ministry of Water Resources and Meteorology

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Meteorology statistics	Yes	4,800*	
Hydrology statistics	Yes	*	
Irrigation system statistics	Yes	*	

\* Combined total costs of meteorology, hydrology and irrigation system.

## 14. Ministry of Information

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Radio, television and newspaper broadcasting network statistics	Yes	n/a	n/a

## 15. Ministry of Justice

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Civil dispute cases statistics of provincial and capital courts	Yes	n/a	n/a
Criminal dispute cases statistics of provincial and capital courts	Yes	n/a	n/a
Minor's criminal dispute cases statistics of provincial and capital courts	Yes	n/a	n/a
Law establishment statistics	Yes	n/a	n/a
Law dissemination statistics	Yes	n/a	n/a
Complaint resolution statistics	Yes	n/a	n/a

## 16. Ministry of National Assembly-Senate Relations and Inspection

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Law dissemination statistics	Yes	2,750	
Law approvals statistics	Yes	2,750	
National assembly and senate member statistics	Yes	2,750	
Inspection at ministries and institutions statistics	Yes	2,750	
Complaint handling statistics	Yes	2,750	

## 17. Ministry of Post and Telecommunication

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Postal services statistics	Yes	1,660	
Telecommunication service business statistics	Yes	1,240	

## 18. Ministry of Health

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Communicable diseases statistics	Yes	n/a	n/a
Health statistics	Yes	223,117	
Public and legal private health facilities statistics	Yes	n/a	n/a

## 19. Ministry of Public Works and Transportation

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Vehicle and vessel registration statistics	Yes	n/a	n/a
Public work and transport infrastructure statistics	Yes	n/a	n/a
Road, rail and vessel traffic accidents statistics	Yes	n/a	n/a

## 20. Ministry of Culture and Fine Arts

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Intellectual property and copyright registration statistics	Yes		11,600
Tangible cultural heritage statistics	Yes		19,200
Intangible cultural heritage statistics	Yes		19,200

## 21. Ministry of Tourism

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
National and international tourism statistics	Yes	80,600	
Tourism industry statistics	Yes	40,300	
Tourism labour force statistics*	No	-	-
Day-visitors statistics*	No	-	-

\* Not produced.

## 22. Ministry of Religions and Cults

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Religion and religious institutions statistics	n/a	n/a	n/a

## 23. Ministry of Women's Affairs

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Gender statistics	Yes		3,460

## 24. Ministry of Labour and Vocational Training

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Labour statistics	Yes	13,200	
Technical vocational education and training statistics	Yes	13,200	
National fund for social security regime	Yes	13,200	

## 25. State Secretariat of Civil Aviation

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Airline company statistics	Yes	n/a	n/a
Airport statistics	Yes	n/a	n/a
Air navigation service provider statistics	Yes	n/a	n/a
Registered civil aircraft statistics	Yes	n/a	n/a

## 26. State Secretariat of Public Functions

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Civil servants and services statistics	Yes	18,374	

## 27. National Bank of Cambodia

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Balance of payments statistics	Yes		20,164
External debt statistics	Yes		4,000
Monetary and finance statistics	Yes		16,344
International trade in goods statistics	Yes		6,998
International trade in services statistics	Yes		4,000
Foreign investment statistics	Yes		4,000

## 28. Council for the Development of Cambodia

Name of Statistics	Data Collection in 2011	Total Cost	
		Estimated Budget	Actual Budget
Use of development cooperation financing statistics	n/a	n/a	n/a
Statistics on public investment project approvals of ministries and institutions	Yes		2,400
Statistics on private investment project approvals including investment projects in special economic zone	n/a	n/a	n/a

## 29. National Training Board

Name of Statistics	Data Collection in 2011	Total Cost (US\$)	
		Estimated Budget	Actual Budget
Labour Market Information	Yes	155,100	

## Appendix 2:

### Type of data source, reporting unit, regional level and frequency

#### 1. National Institute of Statistics

Name of Statistics	Period	Data source	Reporting units*	Regional level	Frequency
Population census statistics	No				
Agriculture census statistics	No				
Establishment census statistics	2011	Census	Enterprise, government organizations and Institutions including village chief, non-government organization & seller	Cambodia Province District Commune	Every ten years

# Legislation for the National Statistical System

Unofficial translation

KINGDOM OF CAMBODIA  
NATION RELIGION KING

# STATISTICS LAW

## Chapter I

### GENERAL PROVISION

- Article 1** This Law governs all matters relating to collection, processing, compilation, analysis, publication and dissemination of statistical data and pertains to the whole Kingdom of Cambodia.
- Article 2** The technical terms used in this Law shall have the following meaning:
- a. “Statistics” are data obtained by collecting, processing, compiling, analyzing, publishing and disseminating results, gathered from respondents through statistical collections or from administrative data sources.
  - b. “National Statistics System” is integrated statistics data at national and local level and infrastructure, including all official statistical data and national statistical programs; statistical organizations and statistical units within ministries and institutions of the Royal Government; as well as their statistical staff and other infrastructure.
  - c. “Basic statistics” are official economic, environment and socio-demographic statistics that are cross sectoral in nature, national and sub-national, that are required by the Royal Government for policy and program formulation and evaluation, as well as for use by the wider Cambodian and international communities.
  - d. “Sectoral statistics” are statistics collected by ministries or institutions of the Royal Government for their internal needs and reporting purposes.
  - e. A “census” is a statistical collection of data on individuals, households, establishments or other organizational units where all units in the population are enumerated .
  - f. A “survey” is a scientific statistical collection of data on individuals, households, establishments or other organizational units where only a sample of units in the population are enumerated .
  - g. A “ statistical officer” is an employee of the Royal Government who has the authority to engage in official statistical activities.
  - h. A “respondent” is an individual, household, company, establishment, government or non- government institution, or other organization, that has been selected in a census or a survey.

- i. Data are information in the form of numbers.
- j. “Designated official statistics” are statistics produced by Government organizations that are determined by the Royal Government to meet the statistical information requirements of policy-makers in formulating and evaluating economic and social policies and programs in addressing the socio-economic development and welfare of the nation, as well as the requirements of decision-makers and researchers in the wider Cambodian and international communities.

## **Chapter II**

### **PRINCIPLES AND DIRECTIONS**

**Article 3** Statistical development is based on the principles of accuracy independence, objectivity, reliability, relevance and timeliness.

**Article 4** Statistical activities shall be guided by the following objectives :

- a. Supporting the statistical data requirements of Royal Government policy-makers in formulating and evaluating economic and social policies and programs, in addressing the socio-economic development and welfare of the nation, as well as the requirements of decision-makers and researchers in the wider Cambodian and international communities.
- b. Facilitating the development of an effective and efficient National Statistical System.
- c. Enhancing public awareness of the importance of the role and function of statistics in national development programs.
- d. Encouraging the development of methodology and technology in statistical activities.

## **Chapter III**

### **STATISTICAL DATA COLLECTION**

**Article 5** Statistical data are collected by:

- a. Conducting censuses.
- b. Conducting surveys.

- c. Accessing government and non-government administrative data sources.

**Article 6** Censuses as referred to in Article 5 (a) shall be conducted at least once every ten years . There are three categories of census.

- a. Population census.
- b. Agricultural census.
- c. Establishment census.

These censuses shall be conducted by the National Institute of Statistics of the Ministry of Planning in cooperation with relevant institutions.

**Article 7** The Royal Government shall issue a Sub-Decree specifying the dates for conducting each of the three censuses within the ten-year period and may change the dates where it deems it necessary to do so.

**Article 8** Intercensal surveys shall be conducted between censuses to facilitate annual updates of the benchmark census data in order to compile accurate and reliable economic and social statistics that meet the needs of government policy makers and other users.

**Article 9** Sample Surveys, as referred to in Article 5(b), may be conducted periodically in order to produce accurate and reliable basic national statistics, as well as on an ad hoc basis in order to address any urgent statistical data needs of the Royal Government. For the purposes of conducting economic surveys, the National Institute of Statistics of the Ministry of Planning will establish a register of businesses or population frame, to be updated and maintained on an annual basis.

**Article 10** Statistics produced from administrative data sources, as referred to in Article 5 (c), shall be compiled using data recorded on administrative documents, forms and other records sourced from both Royal Government and non-government organizations. For the purposes of compiling statistics from administrative data sources, the National Institute of Statistics of the Ministry of Planning will establish a directory of administrative and statistical data sources, to be updated and maintained on an annual basis.

**Article 11** In the context of this Law, the National Institute of Statistics of the Ministry of Planning is responsible for :

- a. Collecting, processing, compiling, analyzing, publishing and disseminating basic data by conducting censuses and surveys, and utilizing administrative data sources.

- b. Compiling national accounts and price indexes, as well as economic, environment and socio-demographic indicators.
- Article 12** Ministries and institutions of the Royal Government shall collect sectoral data either independently or in cooperation with the National Institute of Statistics of the Ministry of Planning by:
- a. Conducting surveys.
- b. Collection of statistical data on administrative records.

## Chapter IV

### COORDINATION AND COOPERATION

- Article 13** The National Institute of Statistics, under the Ministry of Planning, shall be responsible for making official statistical policies in establishing an integrated National Statistical System, encompassing all designated official statistics and statistical organizational units within ministries and institutions. The Royal Government shall issue a Sub-Decree on the operation of the National Statistical System and designated official statistics.
- Article 14** In these tasks, the National Institute of Statistics of the Ministry of Planning shall establish:
- a. Coordination in activities of statistical development, including training, with the ministries and institutions of the Royal Government, and the private sector, at the national and sub-national level.
- b. Cooperative arrangements in statistical activities with international organizations, other national statistical offices, and other private institutions in accordance with the prevailing legislation.
- c. National statistical standards pertaining to classifications, concepts, definitions and statistical units, so as to avoid confusion on the part of data users and any duplication of official statistical data on the part of data producers.
- Article 15** A "Statistics Advisory Council" shall be established to provide advice to the Ministry of Planning in facilitating the development of the National Statistical System. The composition, role and tasks of the Statistics Advisory Council shall be determined by Sub-Decree.
- Article 16** A "Statistics Coordination Committee" shall be established to assist the National Institute of Statistics of the Ministry of Planning in the technical coordination of the official statistics of the Royal Government. The

composition, role and tasks of the Statistics Coordination Committee shall be determined by Sub-Decree.

## **Chapter V**

### **ORGANIZATION**

**Article 17** The National Institute of Statistics is the official national statistical institution and is the Directorate General within the portfolio of the Ministry of Planning, which has a number of Departments responsible for specific statistical activities.

The National Institute of Statistics also has organizational units in the provinces, municipalities, districts, khans and in the communes and sangkats.

**Article 18** Ministries and institutions of the Royal Government that are required to produce designated official statistics under this Law shall establish statistical units within their organizations for statistical purposes and submit the statistical data they produce to the National Institute of Statistics of the Ministry of Planning.

## **Chapter VI**

### **PUBLICATION AND DISSEMINATION**

**Article 19** In order to address the statistical requirements of users:

- a. The National Institute of Statistics of the Ministry of Planning, as well as statistical units in the ministries and other institutions of the Royal Government shall publish and disseminate the statistical data they produce to all users.
- b. The National Institute of Statistics of the Ministry of Planning shall publish a Statistical Yearbook, covering the main aspects of socio-economic conditions in the country.

**Article 20** All statistical data released by the National Institute of Statistics of the Ministry of Planning are designated official statistics of the Royal Government.

## Chapter VII

### RIGHTS AND OBLIGATIONS

**Article 21** Articles 11 and 12 of this Law enable the National Institute of Statistics of the Ministry of Planning, and statistical units in ministries and other institutions of the Royal Government to conduct statistical activities in order to obtain statistical information from respondents in order to produce designated official statistics.

**Article 22** Staff and employees working in the National Institute of Statistics of the Ministry of Planning and statistical units in ministries and other institutions of the Royal Government, as well as the designated statistical officers of these organizations shall ensure confidentiality of all individual information obtained from respondents, except under special circumstances with the consent of the Minister of Planning. The information collected under this Law is to be used only for statistical purposes.

**Article 23** A statistical officer of the Ministry of Planning or any other ministry or institution of the Royal Government shall have the right to enter, with the consent of the owner or resident, for the purposes of statistical data collection:

- a. A dwelling or place of residence, including a home or any part of any other premises that is separately occupied.
- b. Any other premises.

**Article 24** A designated statistical officer of the Ministry of Planning or any other ministry or institution of the Royal Government must present his or her letter of assignment and official identity card to respondents, and shall behave in a professional and polite manner in making suitable interviews, in accordance with local custom and public order.

**Article 25** Respondents must provide accurate, complete and timely information to a designated statistical officer of the Ministry of Planning or any other ministry or institution of the Royal Government.

## Chapter VIII

### PENALTIES

**Article 26** Government employees and designated statistical officers of the National Institute of Statistics and statistical units in ministries or

institutions of Royal Government who violate **Article 22** of this Law will be subject to imprisonment for a period of 1 month (one month) to 6 months (six months) or a fine of 50,000 Riels ( fifty thousand Riels) to 200,000 Riels (two hundred thousand Riels), or both.

**Article 27** Government employees and designated statistical officers of the National Institute of Statistics and statistical units in ministries or institutions of Royal Government who violate **Article 23** of this Law will be subject to imprisonment for a period of 1 day (one day) to 6 days (six days) or a fine of 10,000 Riels ( ten thousand Riels) to 50,000 Riels (fifty thousand Riels), or both.

**Article 28** For any respondent, who knowingly violates **Article 25** of this Law, the following penalties shall apply:

- a. Any individual, or the head of a household, will be subject to a fine of 10,000 Riels (ten thousand Riels) to 50,000 Riels (fifty thousand Riels).
- b. Any manager, director or responsible employee in a company, establishment or any other organization, will be subject to imprisonment for a period of 1 month (one month) to 6 months (six months) or will be subject to a fine of 1,000,000 Riels (one million Riels) to 4,000,000 Riels (four million Riels), or both.

**Article 29** Any individual who deliberately and without legal justification prevents or prohibits statistical activities conducted by the National Institute of Statistics, Ministries, or other government institutions under the provisions of this Law, will be subject to imprisonment for a period of 7 days (seven days) to 1 month (one month) or a fine of 600,000 Riels (six hundred thousand Riels) to 1,500,000 Riels (one million five hundred thousand Riels), or both.

## **Chapter IX**

### **FINAL PROVISION**

**Article 30** All existing provisions which are contrary to this Law shall be null and void.

## Chapter 1 General Provision

### Article 1

This Sub-Decree shall govern all organizational matters and the functioning of the national statistical system, statistics obligations and all relevant matters in order to implement the Statistics Law of the Kingdom of Cambodia.

### Article 2

The technical terms used in this Sub-Decree shall have the following meaning:

- **Designated official statistics** are statistics produced by ministries and other government institutions that are determined by the Royal Government to serve the statistical information requirements of policy-makers in formulating and evaluating policies and socio-economic programs in responding to the socio-economic development of the country, as well as the information requirements of decision-makers and researchers in the wider national and international communities.
- **Designated statistical officer** is an employee of the National Institute of Statistics, ministry, or government institution who is authorized to engage in statistical activities for the purposes of the Statistics Law and this Sub-Decree.
- **Designated statistical unit** is the centralized statistical unit within each ministry or government institution that is determined by the Royal Government as being responsible for producing designated official statistics, in accordance with Article 11 and 12 of the Statistics Law.
- **Director General** is the Director General of the National Institute of Statistics.
- **Form or questionnaire** is an instrument for collecting data that is prepared by the Director General of the National Institute of Statistics and the head of other designated statistical units.
- **National statistical system** is integrated statistical data at national and local level and statistical infrastructure, including official statistical data and national statistical programs, statistical organizations and statistical units within ministries and government institutions, in addition to the statistical staff and other infrastructure.
- **Officer** is a staff of the National Institute of Statistics and designated statistical unit or a designated statistical officer in accordance with the Statistics Law and this Sub-Decree to assist in the carrying out of the functions of the National Institute of Statistics and other government statistical units.
- **Premises** means premises other than a dwelling house or a part of any other premises that is separately occupied or used for the purposes of the residence or living accommodation of a person or persons.
- **Statistical purposes** means purposes in connection with the collection, data entry and processing, compilation, analysis, publication and dissemination of official statistics

- **Statistics obligations of respondents** means the obligation of respondents to cooperate and provide accurate, complete and timely information in relation to censuses and surveys conducted under Articles 11 and 12 of the Statistics Law.

## **Chapter 2**

### **Statistical Organization and Functions**

#### **Article 3**

The National Institute of Statistics is the official statistical policy-making body of the Royal Government, with the responsibility for establishing and leading an integrated national statistical system which covers all designated official statistics of ministries, government institutions and the statistical units of provinces, municipalities, districts, khans and statistical staff in communes and sangkats.

The National Institute of Statistics shall have a number of Departments responsible for specific statistical and support activities.

The National Institute of Statistics shall have statistical units in the provinces, municipalities, districts, khans and statistical staff in all communes and sangkats.

#### **Article 4**

The national statistical system is established as the official statistical system of the Royal Government.

The organizational structure of the national statistical system shall consist of the National Institute of Statistics, other designated statistical units and the staff employed in those statistical units.

Each statistical unit shall be led by a head and a number of vice-heads commensurate with the statistical activities to be undertaken.

#### **Article 5**

The National Institute of Statistics is the official national statistical institution of the Royal Government and shall have responsibility for the following tasks:

- a. Collect, process, compile, analyze, publish, and disseminate official statistics and other information in relation to statistical matters.
- b. Research, develop compilation methods, and develop statistical models and statistical techniques in order to improve the quality of official statistics.
- c. Ensure coordination of the operations of designated statistical units in the collection, processing, compilation, analysis, publication, dissemination of official statistics and information in relation to statistical matters, with regard to:
  - avoidance of duplication in the collection of information for official statistical purposes by designated statistical units;
  - attainment of compatibility and integration between official statistics compiled by designated statistical units;

- effective development, documentation and dissemination of statistical concepts, sources, and methods;
  - implementation of statistical policies, including policies relating to the dissemination of official statistics and the publication of release calendars in advance of the dissemination of official statistics; and
  - maximize utilization and means of collection and dissemination of available information of designated statistical units.
- d. Formulate statistical policies and standards for the carrying out by those statistical units of operations for statistical purposes.
  - e. Provide advice and assistance to designated statistical units in relation to official statistics.
  - f. Provide liaison with other countries and international organizations in relation to statistical matters.

The National Institute of Statistics shall collaborate with designated statistical units within ministries and government institutions, as well as with the governors of provinces, districts, khans, commune, sangkat in the collection, compilation, analysis, publication, and dissemination of statistics, including statistics obtained from administrative records for the purpose of coordinating statistical activities and ensuring the implementation of statistical standards.

#### **Article 6**

The designated statistical unit, being the centralized statistical unit within each ministry or government institution, shall have responsibility for the following tasks:

- a. Collect, process, compile, analyze, publish, and disseminate official statistics and information in relation to statistical matters.
- b. Submit the statistics produced and provide related methodological documentation to the National Institute of Statistics in both electronic and paper form.
- c. Cooperate with the National Institute of Statistics in the collection, processing, compilation, analysis, publication, and dissemination of official statistics and other information in relation to statistical matters, with regard to:
  - avoidance of duplication in statistical activities and official statistics;
  - minimization of respondent burden;
  - attainment of compatibility and the integration between official statistics; and
  - compliance with all statistical policies and standards that are promulgated by the National Institute of Statistics.

#### **Article 7**

The Director General shall be appointed by Royal Decree. The Director General shall perform duties referred to in the provisions of the Statistics Law and this Sub-Decree, and shall not engage in paid employment outside the office's duties except with the approval of the Minister of Planning.

The Director General shall lead the National Institute of Statistics and the national statistical system.

The Director General shall lead and control the organization and functioning of the National Institute of Statistics and the national statistical system, and shall have other functions, powers and duties, with regard to:

- a) Providing advice on statistical matters.
- b) Deciding on procedures of collecting, processing, compiling, analyzing, and disseminating data for statistical purposes.
- c) Providing information in relation to statistical legislation and policies, official statistics, and other statistical matters.
- d) Representing the national statistical system in international forums in relation to statistical matters.

#### **Article 8**

The Director General may appoint an officer, in writing, in accordance with type and class of work, to be a designated statistical officer for the purposes of the Statistics Law and this Sub-Decree.

A head of designated statistical unit shall consult with the Director General before submitting to the relevant Minister or a head of government institution, to appoint an officer in writing in accordance with type and class of work, to be a designated statistical officer for the purposes of the Statistics Law and this Sub-Decree.

#### **Article 9**

The Director General may delegate to an officer by signed instrument, the responsibility for specific statistical activities or coordinating specific statistical activities as specified in the Statistics Law and this Sub-Decree.

A power so delegated, when exercised by the delegate, shall for the purposes of the Statistics Law and this Sub-decree be deemed to have been exercised by the Director-General.

#### **Article 10**

The Director-General shall prepare an annual report relating to the statistical activities and operations, and the dissemination and use of official statistics of the national statistical system during the previous year, and submit it to the Minister of Planning.

The Minister of Planning shall submit this annual report to the Council of Ministers.

#### **Article 11**

The officers of the National Institute of Statistics include all permanent staff as officers of the National Institute of Statistics, responsible for carrying out the functions specified in Article 11 and 19 of the Statistics Law.

The Director General may recruit additional non-permanent staff, during:

- a. Conducting censuses and surveys.
- b. Collecting other statistics and information related to statistical matters.
- c. Providing technical advice and support.

The contract on terms and conditions of employment of non-permanent staff shall be determined by the Director General.

## Article 12

The officers of the designated statistical unit include the permanent staff as officers of that unit, responsible for carrying out the functions as specified in Article 12 and 19 (a) of the Statistics Law.

The designated statistical unit may recruit additional non-permanent staff in consultation with the Director General of the National Institute of Statistics, during:

- a. Conducting surveys.
- b. Collecting other statistics and information related to statistical matters.
- c. Providing technical advice and support.

The contract on terms and conditions of employment of non-permanent staff shall be determined by Ministry or Institution in consultation with the Director General.

## Chapter 3 Statistics Advisory Council

### Article 13

The Statistics Advisory Council is hereby established in accordance with Article 15 of the Statistics Law and shall have the following composition:

Minister of Planning	Chairperson
Secretary of State, Ministry of Planning, in charge of Statistics	Vice Chairperson
Secretary of State, Council of Ministers	Member
Secretary of State, Ministry of Interior	Member
Secretary of State, Ministry of Rural Development	Member
Secretary of State, Ministry of Economy and Finance	Member
Secretary of State, Ministry of Commerce	Member
Secretary of State, Ministry of Education, Youth and Sports	Member
Secretary of State, Ministry of Agriculture, Forestry and Fisheries	Member
Secretary of State, Ministry of Industry, Mines and Energy	Member
Secretary of State, Ministry of Social Affairs, Veterans and Youth Rehabilitation	Member
Secretary of State, Ministry of Post and Telecommunication	Member
Secretary of State, Ministry of Health	Member
Secretary of State, Ministry of Public Works and Transport	Member
Secretary of State, Ministry of Tourism	Member
Secretary of State, Ministry of Women's Affairs	Member
Deputy Governor, National Bank of Cambodia	Member
One representative of academia shall be selected by the Minister of Planning	Member
Director General, National Institute of Statistics	Permanent Member

The Chairperson of the Council has the right to invite technical experts or other representatives of ministries, government institutions, development partners, non-government organizations, and business communities to contribute their opinions, as appropriate.

#### **Article 14**

The Statistics Advisory Council shall meet at least twice a year. The members of the Statistics Advisory Council shall attend the meeting by invitation of the Chairperson.

For every meeting of the Statistics Advisory Council, a quorum of at least half of all members is required. In the absence of this quorum, a second meeting shall be convened, with at least one-third of all members present.

Decisions of the Statistics Advisory Council meetings shall be approved by a majority of the votes of the members present.

The Minister of Planning, as Chairperson of the Statistics Advisory Council has the right to approve or reject a proposal in case of an equality of votes.

Minutes will be prepared for every meeting of the Statistics Advisory Council.

#### **Article 15**

The Statistics Advisory Council has the right to use the seal of the Ministry of Planning. The National Institute of Statistics, Ministry of Planning shall provide the secretariat for the Statistics Advisory Council.

#### **Article 16**

The function of the Statistics Advisory Council is to advise the Minister of Planning, in relation to:

- Determining official statistical policies.
- Identifying statistical priorities and requirements to be addressed by the National Institute of Statistics and designated statistical units.
- Improvement, extension and coordination of the national statistical system and designated official statistics provided for public purposes.
- Updating the Statistics Law, Sub-Decrees, and other regulations in relation to statistical matters.
- Annual, medium, and long term statistical priorities and work programs of the National Institute of Statistics and designated statistical units involved in producing official statistics.
- Statistical master plan.
- Determining the dates of conducting the population, agriculture, and establishment censuses.
- Any other matters relating generally to the national statistical system and official statistics.
- Seeking assistance and support, financial and human resources required by the National Institute of Statistics and designated statistics units, in order to conduct censuses and surveys, and to produce and disseminate official statistics for public purposes.

## Chapter 4

### Statistics Coordination Committee

#### Article 17

The Statistics Coordination Committee is hereby established in accordance to Article 16 of the Statistics Law and shall have the following composition:

Director General, National Institute of Statistics	Chairperson
Deputy Director General, National Institute of Statistics	Vice Chairperson
Director of General Statistics Department, National Institute of Statistics	Secretary
Head or Vice Head of Statistical Unit, Council of Ministers	Member
Head or Vice Head of Statistical Unit, Ministry of Interior	Member
Head or Vice Head of Statistical Unit, Ministry of National Defense	Member
Head or Vice Head of Statistical Unit, Ministry of Foreign Affairs and International Cooperation	Member
Head or Vice Head of Statistical Unit, Ministry of Rural Development	Member
Head or Vice Head of Statistical Unit, Ministry of Economy and Finance	Member
Head or Vice Head of Statistical Unit, Ministry of National Assembly and Senate Relations and Inspection	Member
Head or Vice Head of Statistical Unit, Ministry of Commerce	Member
Head or Vice Head of Statistical Unit, Ministry of Land Management, Urbanization and Construction	Member
Head or Vice Head of Statistical Unit, Ministry of Environment	Member
Head or Vice Head of Statistical Unit, Ministry of Education, Youth and sports	Member
Head or Vice Head of Statistical Unit, Ministry of Religions and Cults	Member
Head or Vice Head of Statistical Unit, Ministry of Agriculture, Forestry and Fisheries	Member
Head or Vice Head of Statistical Unit, Ministry of Industry, Mines and Energy	Member
Head or Vice Head of Statistical Unit, Ministry of Social Affairs, Veterans and Youth Rehabilitation	Member
Head or Vice Head of Statistical Unit, Ministry of Water Resources and Meteorology	Member
Head or Vice Head of Statistical Unit, Ministry of Information	Member
Head or Vice Head of Statistical Unit, Ministry of Justice	Member
Head or Vice Head of Statistical Unit, Ministry of Post and Telecommunication	Member
Head or Vice Head of Statistical Unit, Ministry of Health	Member
Head or Vice Head of Statistical Unit, Ministry of Public Works and Transport	Member
Head or Vice Head of Statistical Unit, Ministry of Culture and Fine Arts	Member
Head or Vice Head of Statistical Unit, Ministry of Tourism	Member
Head or Vice Head of Statistical Unit, Ministry of Women's Affairs	Member
Head or Vice Head of Statistical Unit, Ministry of Labor and Vocational Training	Member
Head or Vice Head of Statistical Unit, Secretariat of Public Service	Member
Head or Vice Head of Statistical Unit, Secretariat of Civil Aviation	Member
Head or Vice Head of Statistical Unit, National Bank of Cambodia	Member
Head or Vice Head of Statistical Unit, Council for the Development of Cambodia	Member

Head or Vice Head of Statistical Unit, Customs and Excise Department	Member
Head or Vice Head of Statistical Unit, Department of Taxation	Member

### **Article 18**

The Statistics Coordination Committee shall conduct meeting at least quarterly. The members of the Statistics Coordination Committee shall attend the meeting by invitation of the Chairperson.

For every meeting of the Statistics Coordination Committee, a quorum of at least half of all members is required. In the absence of this quorum, the second meeting shall not require a quorum.

Decisions of the Statistics Coordination Committee meetings shall be approved by a majority of the votes of the members present.

The Director General, as the Chairperson of the Statistics Coordination Committee, has the right to approve or reject a proposal in the case of an equality of votes.

Minutes will be prepared for every meeting of the Statistics Coordination Committee.

### **Article 19**

The Statistics Coordination Committee has the right to use the seal of the National Institute of Statistics, Ministry of Planning.

The Department of General Statistics, National Institute of Statistics is the secretariat for the Statistics Coordination Committee.

### **Article 20**

The function of the Statistics Coordination Committee is to assist the National Institute of Statistics, in relation to:

- Preparation of statistical policies, procedures, and legislation in relation to the national statistical system and official statistics.
- Establishment of an integrated national statistical system through effective coordination and cooperation on statistical activities and statistical development between designated statistical units, including the National Institute of Statistics, responsible for producing and disseminating official statistics.
- Improvement and extension of the national statistical system and official statistics provided for public purposes.
- Development of annual, medium and long term priorities and programs of work that should be adopted in relation to major aspects of the provision of those official statistics by the National Institute of Statistics and designated statistics units.
- Preparation and updating of statistics master plan.
- Planning the conduct of population, agriculture, and establishment censuses.
- Establishment and annual updating of a register of businesses or population frame, and a directory of administrative and statistical data sources in relation to the national statistical system.
- Implementation of cooperative agreements between ministries, institutions, and other government units on data sharing and the timely provision of accurate and reliable official statistics.

- Establishment of fixed-term or permanent technical working groups for specific statistics or other statistical matters in relation to the national statistical system and official statistics.
- Promulgation and implementation of statistical classifications and standards in relation to official statistics.
- Development of financial budgets and human resource plans for designated statistics units, including the National Institute of Statistics, in order to conduct censuses and surveys, and to produce and disseminate official statistics provided for public purposes.

#### **Article 21**

The Statistics Coordination Committee has the right to establish fixed-term or permanent technical working groups to address other specific statistical technical matters that may require more detailed study and discussion.

The Statistics Coordination Committee shall determine the terms of reference, specific tasks, and the reporting arrangements in relation to the activities and output of each technical working group.

Each technical working group has the following composition:

- |   |                  |
|---|------------------|
| - One member of the Statistics Coordination Committee   | Chairperson      |
| - One Director or Deputy Director of Department,<br>National Institute of Statistics  | Vice Chairperson |
| - Other members from the relevant ministries or other government institutions, including the National Institute of Statistics, being not more than 5 in number as determined by the Statistics Coordination Committee | Member           |

## **Chapter 5 Rights and Obligations**

#### **Article 22**

The National Institute of Statistics, in accordance with the Statistics Law and related Sub-Decrees, shall collect:

- Statistical information as is necessary for the purposes of the compilation and analysis of designated official statistics.
- Additional statistical information as required by the Royal Government for the purposes of planning and policy making.
- Other information, requested in writing by the Minister of Planning, that are required for statistical purposes.

Designated statistical units, in accordance with the Statistics Law and this Sub-Decree, shall collect the statistical information as is necessary for the purposes of the compilation and analysis of designated official statistics for which their statistical units are responsible.

### **Article 23**

The Director General or the head of designated statistical unit shall compile and analyze the statistical information collected, under authority of the Statistics Law and this Sub-Decree, and shall publish and disseminate the results of any such compilation and analysis, or abstract of those results. These results or abstracts shall not be published or disseminated in a manner that enables the identification of a particular person or organization.

### **Article 24**

Every authorized officer undertaking a statistical activity under the Statistics Law and relevant Sub-Decree, shall sign a contract in the presence of a witness, in order to ensure:

- Fidelity;
- The confidentiality of all individual information obtained from respondents;
- The information collected is used only for statistical purposes.

### **Article 25**

Under special circumstances, the Minister of Planning may determine in writing to provide a specified class of information, according to the request in writing of the Director General or the head of designated statistics unit.

Such determinations shall specify:

- a. The persons to whom the information will be provided.
- b. The requirement of the consent of respondents who have provided the information.
- c. The terms and conditions of using the information, including the requirement that the information provided not be disclosed to any other persons.

Information of a personal or domestic nature relating to a respondent shall not be disclosed in accordance with a determination in a manner that is likely to enable the identification of that person.

Information on the business registration number, name, address, location, type of legal organization, industry, institutional sector, number of employees or other stratification variables of agricultural and establishment units and other institutions, that is required by the National Institute of Statistics and designated statistical units to construct census and survey frames for the purposes of conducting data collection activities and compiling official national and sub-national statistics, shall not require consent from the respondents.

### **Article 26**

A statistical officer of the Ministry of Planning or a designated statistical officer, in accordance with Article 23 and Article 24 of the Statistics Law, shall present his or her letter of assignment, official identity card and, with the consent of the owner or resident, may enter a dwelling or place of residence, including a home or any part of other premises that is separately occupied and other places, at a reasonable time for the purposes of:

- a. Providing persons questionnaires or statistical forms to fill up.
- b. Collecting questionnaires or statistical forms that have been completely filled up.
- c. Conducting interviews and other inquiries for statistical purposes.

#### **Article 27**

- a. The Director General or the head of designated statistical unit have the following rights and obligations:
  - Preparing questionnaires or statistical forms relating to the collection of statistical information in relation to any specified matters.
  - Preparing a letter requiring persons who have the specified skill and responsibility to fill up questionnaires or statistical forms, in accordance with instructions.
- b. The Director General or the head of designated statistical unit or a designated statistical officer may:
  - Request persons to fill up and supply statistical information in accordance with instructions, in writing or orally.
  - Direct persons to fill up the questionnaires or statistical forms correctly and completely in accordance with instructions.
- c. The Director General or the head of designated statistical unit shall prepare a letter informing respondents of the purpose of the data collection that will be attached with the questionnaires or statistical forms sent to persons by post or delivered in person. Persons who receive the questionnaires or statistical forms shall be responsible to fill up the questionnaires or statistical forms in accordance with the instructions and to return those completed questionnaires or statistical forms to the Director General or the head of designated statistics unit, in a period not less than 14 working days, starting from the date of receiving the questionnaires or statistical forms.
- d. The information letter of the Director General or the head of designated statistical unit shall explain the penalties as specified in Article 28 and Article 29 of the Statistics Law.

#### **Article 28**

- a. The Director General or the head of designated statistical unit or a designated statistical officer may request a person to answer any questions that is necessary, in writing or orally.
- b. The Director General or the head of designated statistical unit may, by notice in writing or personally or by assigning a statistical officer's on his or her behalf, direct a person to answer any questions that are necessary, in a period not less than 14 working days, starting from the date of receiving questions.
- c. Any request by the Director General or the head of designated statistical unit shall explain the penalties as specified in Article 28 and Article 29 of the Statistics Law.

## **Chapter 6**

### **Penalties**

#### **Article 29**

A person who violates the provision of Article 25, Article 27 and Article 28 of this Sub-Decree shall be subject to the relevant penalties specified in the Statistics Law.

### **Article 30**

A person who has been provided with questionnaires or statistical forms to be filled up within a specific period, as specified in Article 27 (c) or Article 28 (b) of this Sub-Decree, is still under the obligation to completely fill-up the questionnaires or statistical forms until the completed questionnaires or statistical forms are submitted.

## **Chapter 7**

### **Final Provision**

### **Article 31**

All existing provisions which are contrary to this Sub-Decree shall be considered null and void.

### **Article 32**

Minister in charge of the Cabinet of the Council of Ministers, Minister of Planning, Minister of Economy and Finance, Ministers, Secretaries of State of all ministries and secretariats and the heads of concerned government institutions shall implement this Sub-Decree effectively from the date of signature.

## HEREBY DECIDES

### Chapter 1

#### General Provision

##### Article 1

This Sub-Decree aims to designate ministries and institutions of the Royal Government to collect, compile the designated official statistics by its own sector.

##### Article 2

This Sub-Decree aims to serve the statistical information requirements of policy-makers in formulating and evaluating policies and socio-economic programmes in responding to the socio-economic development of the country, as well as the information needs of decision-makers and researchers in the wider national and international communities.

##### Article 3

This Sub-Decree governs all designated official statistics and designated statistical units within the ministries and institutions of the Royal Government as specified in the Statistics Law.

##### Article 4

The technical terms used in this Sub-Decree shall have the following meaning:

- **Designated statistical unit** is the centralized statistical unit within each ministry or government institution that is determined by the Royal Government as being responsible for producing designated official statistics, in accordance with Article 11 and 12 of the Statistics Law.
- **Administrative data** is data or information collected from the administrative records of ministries, government institutions and non-government organizations.
- **Basic statistics** are official economic, social, environment and demographic statistics that are cross sectoral in nature, national and sub-national, that are required by the Royal Government for policy and program formulation and evaluation, as well as for use by the wider national and international communities.
- **Sectoral statistics** are statistics collected by ministries or government institutions for their internal needs and reporting purposes.
- **Census** is a statistical collection of data on individuals, households, establishments or other organizational units where all units in the population are enumerated.

- **Survey** is a scientific statistical collection of data on individuals, households, establishments or other organizational units where only a sample of units in the population are enumerated.
- **Metadata** is a description of the data i.e. description of the source, compilation methodology, time of dissemination, institution and who is responsible for the compilation for the users to understand in-dept the data.

## **Chapter 2**

### **Designated Official Statistics of the National Institute of Statistics**

#### **Article 5**

In accordance with the Statistics Law, all statistical data released by the National Institute of Statistics are designated official statistics. The National Institute of Statistics shall disseminate to the public with the basic statistics and sectoral statistics, either produced by itself or in cooperation with other statistical units of the Royal Government:

#### **1. Census Statistics**

- Population census statistics, every ten years
- Agriculture census statistics, every ten years
- Establishment census statistics, every ten year.

#### **2. Survey Statistics**

- Inter-censal population survey statistics, every ten years
- Education and literacy survey statistics, every five years
- Demographic and health survey statistics, every five years
- Informal sector and non-observed economy survey statistics, every five years
- Crime and justice survey statistics, every five years
- Establishment survey statistics, annual
- Labour force survey statistics, annual
- Agricultural finance survey statistics, annual
- Socio-economic survey statistics, annual
- Demographic survey statistics
- Child labour survey statistics.

#### **3. Economic Statistics**

- Integrated business register statistics, annual
- National accounts statistics, quarterly and annual
- Agricultural and industrial production indices, quarterly and annual
- Retail and wholesale trade statistics and indices, quarterly and annual
- Consumer price indices, monthly, quarterly and annual

- Export and import price indices, monthly and quarterly
- Sector satellite accounts
- Labour and wage cost indices
- Producer and services price indices.

#### **4. Environment and Natural Resources Statistics**

- Environment and natural resources statistics
- Environment and natural resources satellite accounts.

#### **5. Socio-Demographic Statistics**

- Demographic and population statistics, annual
- Household income and expenditure statistics, annual
- Other social statistics, annual.

#### **6. Compendium Statistics**

- Statistical yearbooks by national, capital, provincial levels, annual
- Statistical handbooks by municipal, district, khan, commune, sangkat levels annual
- Economic and environment indicators, annual
- Socio-demographic indicators, annual.

The dates specified in sub-article 1, 2, 3, 4, 5 and 6 shall be changed in case necessary.

The National Institute of Statistics shall conduct surveys and compile other official statistics where it deems necessary to use as needed.

### **Chapter 3**

#### **Designated Official Statistics of other Statistical Units**

##### **Article 6**

The designated statistical units within ministries and government institutions shall be responsible for collecting, compiling, analyzing, publishing and disseminating statistics to the public with the following designated official statistics:

##### **1. The Council of Ministers**

- Economic, social and cultural conditions analysis statistics, monthly and annual.

##### **2. The Ministry of Interior**

- Citizen statistics, annual
- Identification card statistics, annual
- Vital registration statistics, annual

- Criminal offence and cleared-up statistics, annual
- Persons in prison and correction statistics, annual
- Immigration statistics, annual
- Political party statistics, annual
- Non-government organization statistics, annual
- New establishment of municipality, district, khan, sangkat, commune and village statistics.

### **3. The Ministry of Economy and Finance**

- Government finance statistics, monthly and annual
- Public debt statistics, quarterly and annual
- Government budget implementation statistics, monthly and annual
- Excise statistics, annual
- Goods transported by road, railway, water and air statistics, quarterly and annual
- Non tax revenue statistics, annual
- Foreign trade statistics, monthly, quarterly and annual.

### **4. The Ministry of Agriculture, Forestry and Fisheries**

- Agricultural commodity price statistics, monthly, quarterly and annual
- Area, yield and quantity of crop production survey statistics, by season and annual
- Livestock production and animal health statistics, annual
- Fishery statistics, annual
- Forestry statistics, annual
- Rubber production statistics, annual
- Agricultural machinery statistics, annual
- Agricultural drug and equipment statistics, annual.

### **5. The Ministry of Rural Development**

- Rural road statistics, annual
- Rural clean water statistics, annual
- Rural sanitary latrine statistics, annual
- Minority ethnic group statistics, annual
- Small-scale irrigation system statistics, annual
- Rural market statistics, annual
- Rural development credit statistics, annual
- Rural school construction statistics, annual.

### **6. The Ministry of Commerce**

- Trade registration statistics, annual
- Trademark registration statistics, annual.

### **7. The Ministry of Industry, Mines and Energy**

- Industry and handicraft statistics, monthly and annual

- Energy statistics, annual
- Mineral resources statistics, annual
- Clean water statistics, annual
- Industrial property registration statistics, annual.

**8. The Ministry of Education, Youth and Sport**

- Pre-school and primary education statistics, annual
- Lower and upper secondary education statistics, annual
- Higher education statistics, annual
- Non-formal education statistics, annual.

**9. The Ministry of Social Affairs, Veteran and Youth Rehabilitation**

- Social affairs, veteran and youth rehabilitation statistics
- Organization partners registered the memorandum on social, veteran and youth rehabilitation works statistics, annual
- National social security fund for civil servants statistics, annual
- Statistics on national social security fund for general population, annual
- Statistics on national social security fund for veterans, annual.

**10. The Ministry of Land Management, Urban Planning and Construction**

- Construction sector statistics, annual
- Land sector statistics, annual
- Land management and urban planning sector statistics, annual.

**11. The Ministry of Environment**

- Natural resources change in natural protection areas statistics, annual
- Climate change statistics, annual
- Solid and liquid waste pollutions and air pollution statistics, annual.

**12. The Ministry of Water Resources and Meteorology**

- Meteorology statistics, daily, monthly, quarterly and annual
- Hydrology statistics, daily, monthly and annual
- Irrigation system statistics, annual.

**13. The Ministry of Information**

- Radio, television and newspaper broadcasting network statistics, annual.

**14. The Ministry of Justice**

- Civil dispute cases statistics of provincial and capital courts, annual
- Criminal dispute cases statistics of provincial and capital courts, annual
- Minor's criminal dispute cases statistics of provincial and capital courts, annual
- Law establishment statistics, annual
- Law dissemination statistics, annual
- Complaint resolution statistics, annual.

**15. The Ministry of National Assembly-Senate Relations and Inspection**

- Law dissemination statistics, annual
- Law approvals statistics, annual
- National assembly and senate member statistics, annual
- Inspection at ministries and institutions statistics, annual
- Complaint handling statistics, annual.

**16. The Ministry of Post and Telecommunication**

- Postal services statistics, annual
- Telecommunication service business statistics, annual.

**17. The Ministry of Health**

- Communicable diseases statistics, monthly and annual
- Health statistics, annual
- Public and legal private health facilities statistics, annual.

**18. The Ministry of Public Works and Transportation**

- Vehicle and vessel registration statistics, annual
- Public work and transport infrastructure statistics, annual
- Road, rail and vessel traffic accidents statistics, annual.

**19. The Ministry of Culture and Fine Arts**

- Intellectual property and copyright registration statistics, annual
- Tangible cultural heritage statistics, annual
- Intangible cultural heritage statistics, annual.

**20. The Ministry of Tourism**

- National and international tourism statistics, monthly, quarterly and annual
- Tourism industry statistics, by semester and annual
- Tourism labour force statistics, annual
- Day-visitors statistics, monthly, quarterly and annual.

**21. The Ministry of Religions and Cults**

- Religion and religious institutions statistics, annual.

**22. The Ministry of Women's Affairs**

- Gender statistics, annual.

**23. The Ministry of Labor and Vocational Training**

- Labour statistics, annual
- Technical vocational education and training statistics, annual
- National fund for social security regime, annual.

**24. The State Secretariat of Civil Aviation**

- Airline company statistics, annual
- Airport statistics, annual
- Air navigation service provider statistics, annual
- Registered civil aircraft statistics, annual.

**25. The State Secretariat of Public Functions**

- Civil servants and services statistics, annual.

**26. The National Bank of Cambodia**

- Balance of payments statistics, quarterly and annual
- External debt statistics, quarterly and annual
- Monetary and finance statistics, monthly
- International trade in goods statistics, quarterly and annual
- International trade in services statistics, quarterly and annual
- Foreign investment statistics, quarterly and annual.

**27. The Council for the Development of Cambodia**

- Use of development cooperation financing statistics, annual
- Statistics on public investment project approvals of ministries and institutions, by semester and annual
- Statistics on private investment project approvals including investment projects in special economic zone, monthly, quarterly and annual.

The designated statistical units within ministries and government institutions shall be responsible for collecting, processing, compiling, analyzing, publishing and disseminating other official statistics to the public according to the data requirements of users.

## **Chapter 4**

### **Data Management and Source Data Collection**

**Article 7**

All censuses and surveys shall be conducted by the National Institute of Statistics. The sectoral survey shall be conducted by the designated statistical units itself or in cooperation with the National Institute of Statistics. The National Institute of Statistics and the designated statistical units shall release census and survey data at the most detailed level possible, while ensuring the confidentiality of individual unit record data and the quality of statistical data.

The designated statistical units shall collect and compile the statistics as specified in Article 6 of this Sub-Decree from:

- Administrative data or sectoral survey data which collected by ministries, government institutions, non-government organizations, associations and civil societies.
- Capital, provincial, municipal, district, khan, commune, and sangkat data
- Data released by the National Institute of Statistics.

#### **Article 8**

All existing administrative data collections, censuses and surveys conducted by the National Institute of Statistics and other ministries and government institutions shall be registered within the National Institute of Statistics starting from the date of this Sub-Decree came into effect.

All planned and new administrative data collections, censuses and surveys shall be registered within the National Institute of Statistics before commencement of work.

Ministry of Planning shall disseminate to the designated statistical units, the registration forms (templates) and implementation date.

#### **Article 9**

Based on the two coordination mechanisms as specified in Article 15 and Article 16 of the Statistics Law concerning the Statistics Advisory Council and the Statistics Coordination Committee, the Minister of Planning shall approve and update the Statistical Master Plan on administrative data collection, censuses and surveys or give direction for merger, modification or discontinuation of administrative data collections, censuses and surveys in order to eliminate duplication and maximize the use of field enumeration and data processing capacities of the National Institute of Statistics.

#### **Article 10**

The Minister of Planning shall submit a list of all existing administrative data collections, censuses and surveys, the cost and status of each data collection to the Council of Ministers within 12 (twelve) months after this Sub-Decree came into effect. Every year, the Minister of Planning shall submit a list of all new administrative data collections, censuses and surveys to the Council of Ministers.

#### **Article 11**

The designated statistical units within ministries and government institutions shall submit all information and statistical data produced in electronic and paper form to the National Institute of Statistics and the Council of Ministers regularly and timely.

#### **Article 12**

The National Institute of Statistics shall establish and maintain a directory of administrative and statistical data sources, based on the metadata information collected through the registration process. The metadata directory shall be updated on an annual basis and released via website of the National Institute of Statistics.

**Article 13**

All existing provisions which are contrary to this Sub-Decree shall be null and void.

**Article 14**

Minister in charge of the Cabinet of the Council of Ministers, Minister of Economy and Finance, Minister of Planning, Ministers, Secretaries of State of all ministries and institutions concerned shall implement this Sub-Decree that takes effect from the date of signature.

2.3. តើអ្នកបានប្រមូលទិន្នន័យ ក្នុងឆ្នាំ ២០១១ ដែរឬទេ? (ត្រូវចម្លើយ ✓ )

បាទ Yes

ទេ No

Did you collect data in 2011? (tick ✓ an answer)

បើ **បាទ** សូមបន្តទៅសំណួរ 2.4 If **Yes**, continue question 2.4

បើ **ទេ** តើមូលហេតុអ្វី ដែលអ្នកមិនបានផលិតស្ថិតិ ក្នុងឆ្នាំ ២០១១ ។ (ចប់ការសម្ភាសន៍)

If **No**, What are the reasons for not producing the statistics in 2011. (Finish)

---

---

---

2.4. ទិន្នន័យដែលអ្នកបានប្រមូលក្នុងឆ្នាំ ២០១១ តើសម្រាប់ឆ្នាំ/រយៈពេលណា?

For what period/year did you collect data in 2011?

---

2.5. តើមានប្រភពទិន្នន័យអ្វី សម្រាប់ស្ថិតិរបស់អ្នក? សូមត្រូវចម្លើយ ✓ ខាងក្រោម។ អាចផ្តល់ចម្លើយច្រើន បើមាន។

What are your data sources for statistics? Please tick ✓ an answer below. Give multiple answers if possible.

1. កំណត់ត្រារដ្ឋបាល Administrative record

3. ជំរឿន Census

2. អង្កេត Survey

4. ដទៃទៀត (សូមបញ្ជាក់) Other (specify)

---

2.6. បើប្រកបជាអង្កេត ឬជំរឿន តើអ្នកប្រមូលស្ថិតិអ្នកណាខ្លះ? សូមគូសចម្លើយ ✓ ខាងក្រោម ។ អាចផ្តល់ចម្លើយច្រើន បើមាន ។  
 If survey or census who do you collect statistics from? (What is the reporting unit?) Please tick ✓ the answers below. Give multiple answers if possible.
